the bloomsbury research handbook of chinese philosophy methodologies presents a new understanding of the changing methods used to study chinese philosophy by identifying the various different approaches and discussing the role and significance of philosophical methods in the chinese tradition this collection identifies difficulties and exciting developments for scholars of asian philosophy divided into four parts the nature of chinese philosophical thought is illuminated by discussing historical developments current concerns

and methodological challenges surveying recent methodological trends this research companion explores and evaluates the methodologies that have been applied to chinese philosophy from these diverse angles an international team of experts reflect on the considerations that enter their methodological choices and indicate new research directions the bloomsbury research handbook of chinese philosophy methodologies is an important contribution to the education of the next generation of chinese philosophers

from recent sex abuse scandals in the roman catholic church to arguments about faith schools and religious indoctrination this volume considers the interconnection between the actual lives of children and the position of children as placeholders for the future childhood has often been a particular site of struggle for negotiating the location of religion in public and everyday social life and children's involvement and non involvement in religion raises strong feelings because they represent the future of religious and secular communities even of society itself the bloomsbury reader in religion and childhood provides a rich resource for students and scholars of this interdisciplinary field and addresses wider questions about the distinctiveness of childhood and its religious dimensions in historical and contemporary perspective divided into five thematic parts the volume provides classic contemporary and specially commissioned readings from a range of perspectives including the sociological anthropological historical and theological case studies range from augustine's description of childhood in confessions the psychology of religion and childhood to religion in children's literature religious education and qur'anic schools religious traditions covered include christianity judaism islam hinduism and buddhism in the uk and europe usa latin america and africa an introduction situates each thematic part and each reading is contextualised by the editors guidance on further reading and study questions are provided on the book's webpage

suicide on the left says chief inspector coldwell as he and maughan stride along but coldwell discovers that dawlish fresh out of prison for forgery is not considering suicide but murder coldwell suspects druze as the intended victim maughan disagrees it will be because he does not love children

this volume presents evidence based ideas on all three converging forces to suit an array of individuals and their organisations the volume is thick with evidence detail and case studies that the reader can draw upon and apply to their own situations defining exactly what is leadership has been a persistent problem for researchers and theorists discovering how to create or produce leaders likewise has been a difficult challenge over the years written by an academic executive and coach the author focuses on three important converging aspects leadership followership and coaching focus on leaders is disproportionate to what actually occurs within most organisations especially the relationship between the leader and the followers that leadership is tantamount with being in control of a situation is challenged together with the belief that leadership capability is primarily shaped in line with a set of success criteria the coach plays a significant part in this process although rarely visible

what makes the book stand out is the inclusion of real research into various criminal justice institutions that have actually been undertaken by the authors in doing so what is produced is a book that stimulates interest and injects research passion as well as offering research know how into what can often be a difficult and sometimes dry area of research tina patel

liverpool john moores university this book provides an essential tool for undergraduate students embarking upon their own research projects in criminology it provides clear and informative guidance on a range of research methods and designs to assist students in their own criminological endeavours jacki tapley university of portsmouth how do criminologists go about studying crime and its consequences how are programmes for offenders and communities evaluated how can you collect and analyse criminological material research on crime and criminality is often referred to by the media policy makers and practitioners but where does this research come from and how reliable is it designed especially for students on criminology and criminal justice courses and professionals working in the field researching criminology emphasises the importance of research as an integrated process it looks at the ways in which a mixture of investigative methods can be used to analyze a criminological question written by two experienced researchers and lecturers researching criminology is a comprehensive introduction to the aims principles and methods of doing criminological research the book covers all the key topics that you will encounter when researching crime individual chapters include material on the research process principles of researching criminology how to design criminological research evaluation research researching ethically a glossary of essential key concepts structured in three parts addressing the principles of criminological research how to collect and analyse material and providing detailed examples of real world research researching criminology will be of benefit to all students of criminology and criminal justice for practitioners interested in criminological research and for those undertaking criminological research for the first time

this book debunks the argument that quality in education can only be achieved by limiting or trading off equality the quality of schooling is a major issue for third world nations across the globe however there is no single measure which is universally accepted whether it is as some economists might argue an issue of the number of desks per classroom or one of national sovereignty is widely disputed defining equality in education becomes increasingly difficult in an era of globalization in which there exists a wide gap between rich and poor both within and between nations in the context of an international move towards new right politics and neo liberal economic ideologies both the quality and equality of education are imperiled this book argues that any worthy definition of quality education must include the interests and participation of the underprivileged

analytic philosophy is alive and in good health as this collection of twenty previously unpublished essays most ably demonstrates the reader will find here assembled some of the finest writings of modern analytic philosophers at the top of their form matthews discusses plato s attempt to deal with the problem of false belief about identities parson evaluates russell s early theory of denoting phrases chisholm exhibits the utility of thirteen epistemic categories plantinga criticizes chisholm s account of justification coneeloe argues that solving the gettier problem is important and ginette proposes a solution to it lehrer criticizes an argument based on the simplicity of our belief in material objects and other minds ronald feldman defends an account of having evidence feldman defends a propositional account of pleasure van fraassen criticizes garber s solution to the problem of old evidence castañeda investigates the nature of negation mckay argues that de se analyses of belief do not account for belief de re richard argues that no fregean semantics for belief attribution will succeed ryckman suggests that the millian theory of names has little to do with the theory of belief is no threat to god s omniscience dunn investigates constraints imposed on

non classical modal logics by extensionality fitch argues that singular propositions perform important functions in modal logic jubien evaluates arguments for and against possible worlds ratzsch argues that there must be a deeper source of nomicality than ordinary subjunctives and stalnaker argues that there is room for determinacy of identity and indeterminacy in reference
