this title was first published in 1980 in twentieth century japanese literature the opposition and interaction of realism and romanticism on the level of literary concepts and of marxism and aestheticism including in part modernism on the level of literary ideology supplies a most vital basis for writers searching for new methods of literary expression fostering debates among the writers and creating the setting for active experimentation with style form and language this study is a result of an extended stay in the united states by the author who turned increasingly toward questioning and evaluating my own relation to japan s literary heritage for japanese who have witnessed at least intellectually the violent attraction to and rejection of foreign cultures of many of their predecessors in the meiji taisho and showa eras and their final often sentimental and abstract glorification of the japanese cultural heritage nihon kaiki return to japan still presents enormously complex intellectual as well as emotional problems

the uses of literature in modern japan explores the varying uses of literature in japan from the late meiji period to the present considering how creators conveyors and consumers of literary content have treated texts and their authors as cultural resources to be packaged promoted

and preserved as the printed word became a crucial form of entertainment and edification for an increasingly literate public in early 20th century Japan. Literature came to assume a variety of new uses touching upon a wide array of sources. Sari Kawana traces the ways in which literary works have morphed into different variants ranging from textual compilations, textbooks, and visual film/manga to virtual and real world through innovative publishing and reading practices. She takes up themes such as the materiality of texts, the role of publishers and advertising campaigns, the interplay between literature and other media, and the creation and dissemination of larger cultural fantasies tied to literary consumption. She stresses the agency and creativity with which readers engaged literary works from divergent readings of propaganda literature to inventive adaptations of canonical texts in adjacent media, culminating in the practice of literary tourism. Moving beyond close reading of texts to look at their historical context, the book will appeal not only to scholars of modern Japanese literature but also those studying the history of the book and modern Japanese cultural history.
