a documentary history that studies the series of laws passed by the us congress to establish the federal immigration and naturalization policies which have been put into effect since the founding of the nation legislation which has been designed increasingly to restrict and curtail immigration and which has been particularly harsh on asian immigrants since its inception complete chapters are devoted to each major piece of legislation from the reconstruction era to the immigration act of 1965 documents attached to the end of each essay treat particular topics related to it annotation copyright by book news inc portland or

numerous previous studies have examined the economic impacts of trade measures on forest product markets most have focussed on either tariffs or rather obvious quantitative measures such as import or export quota restrictions there is growing concern about the impact of the far less obvious non tariff trade measures on the global forest product sector the objective of this study is to fill a gap and to estimate trade and economic impacts of nontariff barriers and compare them to the impacts of tariffs a database of ad valorem equivalent estimates for a set of well defined non tariff trade restrictions is incorporated into a global forest products trade model non tariff barriers are found to be less common than tariffs but are found to have similar or bigger aggregate impacts than tariffs do on trade production producer revenues consumer expenditures and value added impacts of reducing tariff and non tariff barriers are often different across regions and products our results underscore the importance of analysing both types of trade policy and the need for continuing comprehensive trade liberalization

a chapter from the global innovation science handbook a comprehensive guide to the science art tools and deployment of innovation brought together by two editors of the prestigious international journal of innovation science with ground breaking contributions from global innovation leaders in every type of industry

a quiet revolution is taking place in america s forests once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have

only begun to be fully realized now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager this book provides the first comprehensive examination of nontimber forest products ntfps in the united states illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them as the first extensive national overview of ntfp policy and management specific to the united states it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of ntfps the contributors review the state of scientific knowledge of ntfps by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce they examine some of the major social economic and biological benefits of ntfps while also addressing the potential negative consequences of ntfp harvesting on forest ecosystems and on ntfp species populations within this wealth of information are rich accounts of ntfp use drawn from all parts of the american landscape from the pacific northwest to the caribbean from honey production to a review of nontimber forest economies still active in the united states such as the ojibway harvest of plants recounted here the book takes in the whole breadth of recent ntfp issues including ecological concerns associated with the expansion of ntfp markets and ntfp tenure issues on federally managed lands no other volume offers such a comprehensive overview of ntfps in north america by examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
