this new printing is not a newly revised edition only an enlarged one the revised edition of 1957 remains intact except that its short introduction has been greatly expanded to appear here as chapters i and ii the only other changes are technical and minor ones the correction of typographical errors and amended indexes of subjects and names

this second edition of patrick baert s widely acclaimed social theory in the twentieth century has been brought right up to date with cutting edge developments in social theory today it offers an easy to read but provocative account of the development of social theory covering a range of key figures and classic schools of thought the authors also bridge the gap between philosophy and social theory locating the theoretical views of individuals such as giddens foucault and habermas within wider historical traditions

a very substantial and reliable introduction to social theory imaginatively written and extremely readable the new edition contains three valuable additional chapters william outhwaite professor of sociology university of sussex uk the long anticipated second edition of this original and approachable text examines social theory in the context of its traditions and historical development and explores its contemporary relevance in explaining society and understanding social relations the text has been substantially revised and includes three new chapters two of which depict theory in action and a new conclusion may and powell have also added new material on both emotion and globalisation situating social theory begins by charting the history of social theory examining its development in terms of the enlightenment project and the cultural and intellectual contexts in which theorists worked and constructed their ideas it goes on to critically examine traditions in social thought including hermeneutics phenomenology pragmatism critical theory structuralism actor network theory systems theory and feminisms in outlining the main ideas behind these traditions the form and content of modern social theory is situated within its historical roots enabling the reader to actively explore the arguments and reflect upon their strengths and weaknesses throughout the book the relationships

between agency the social self and social structure provide a thematic coherence there is a comprehensive bibliography that will help the reader to explore theories of particular interest in greater depth situating social theory is an invaluable text for intermediate undergraduate courses within sociology and the wider social sciences and provides an essential source of reference for advanced undergraduates and postgraduate researchers

an upper division undergraduate social theory textbook that introduces the student to the multitude of different theorists this book helps students grasp theories and their relevance and application to modern life

social theory has undergone dramatic changes over the past fifteen years the aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought the contents of the book range in a systematic way across the major traditions of social theory prominent today among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences traditions of thought discussed include behaviourism symbolic interactionism parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory marxism and critical theory

introducing social theory traces the development of social theorizing from the classical ideas about modernity of durkheim marx and weber right up to a uniquely accessible review of contemporary theoretical controversies in sociology surrounding post modernity and reflexive sociology with great clarity the authors explain the ideas of seminal thinkers such as foucault bauman habermas beck bourdieu and giddens as well as paying increased attention to other important contributions from theorists such as margaret archer fredric jameson and george ritzer publisher description

over the past quarter century social theory has moved in diverse and often seemingly incompatible directions exaggerating differences of approach that existed even in earlier periods in a strikingly original book barry barnes uses this intellectual diversity not only to identify but also to unify the central ways of looking at the field barnes frames his task by addressing the most important problem confronting all students of society today the apparent conflict between cultural and functional methods of describing the social order on one hand and choice theoretic accounts on the other but rather than reviewing in detail the origins and development of these contending views of reality barnes conducts a dialogue between the two perspectives thereby revealing their respective strengths and shortcomings in the process he develops a case for a theoretical third way an interactionist understanding of the workings of the social order and the emergence of behavioral norms barnes successfully applies interactionist analysis formerly used mostly for micro social settings to macro phenomena like the formation of status groups the origin of social movements the politics of class formation and the dynamics of bureaucratic action he shows how these phenomena are inexplicable in terms of exclusively cultural functional or choice theoretic methods they can be understood only by showing how norms emerge through interaction barnes has constructed a coherent and learned vision of the fundamentals of social theory that will excite not only sociologists but all social scientists and their students originally published in 1995 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

treating social theory as an exciting intellectual journey in its own right this new introductory level textbook presents the key ideas and concepts in social theory together with an account of the intellectual background

from which they emerged aimed at first year undergraduates studying sociology and all related disciplines in the social sciences and humanities it provides an introduction to the major questions and debates facing social theorists and sociologists clearly designed presentation and layout features help readers navigate their way around the material thus giving them the best chance of finding what they need quickly and easily the book is supported by a companion website containing additional materials for both students and lecturers using the book which is available from the link above

roger sibeon s distinctive new book forms part of a movement towards what many others have referred to as the return to sociological theory and method offering both description and critique of contemporary theoretical and illustrative empirical materials the goal of this book is a renewal of sociology and social theory that will facilitate worthwhile social knowledge that contributes to an understanding of the practical problems of making sense of social theory

foundations of social theory a critical introduction accessibly introduces students to classical and contemporary social theory exploring the foundational theories which shape the discipline while also engaging critically with their contribution and presenting the more progressive and contemporary theorists in dialogue with canonical figures social theory is introduced as the construction and connection of concepts which make social inquiry possible while appreciating that the study of society is never truly objective the relationship between positionality politics research and knowledge production is discussed and ideas from critical theorists feminist theorists and decolonial and critical race theorists are foregrounded travelling chronologically and thematically from the birth of the discipline and the work of marx weber and durkheim through to intersectionality queer theory and decolonial and postcolonial theory this book gives students a strong foundation in the broad field of social theory while also encouraging them to think critically about the theories and theorists presented equipped with end of chapter questions and further reading this book will be essential reading for any student studying social theory for the first time

social theory is the theoretical core of the social sciences clearly distinguishable from political theory and cultural analysis this book offers a unique overview of the development of social theory from the end of the second world war in 1945 to the present day spanning the literature in english french and german it provides an excellent background to the most important social theorists and theories in contemporary sociological thought with crisp summaries of the main books arguments and controversies it also deals with newly emerging schools from rational choice to symbolic interactionism with new ambitious approaches habermas luhmann giddens bourdieu structuralism and antistructuralism critical revisions of modernization theory feminism and neopragmatism written by two of the world s leading sociologists and based on their extensive academic teaching this unrivalled work is ideal both for students in the social sciences and humanities and for anyone interested in contemporary theoretical debates

this textbook delivers a new thematic introduction to social theory that explores theoretical issues in their contemporary social contexts each chapter is devoted to a specific thematic area including the state governance the economy civil society culture language knowledge the self emotions the body and social justice each chapter details the key issues for debate and the relevant theories while linking those debates and theories to everyday life distributed throughout the chapters are focused sections on key concepts and their research applications alongside helpful additional detail including a glossary further suggested readings chapter summaries and questions for discussion the book also provides useful information on key theoretical movements such as feminism marxism and post structuralism as well as biographies of key theorists as such it reflects the breadth of social theory and its interdisciplinary nature by drawing on thinkers not just from sociology but also from philosophy history literature geography and cultural and gender studies the book s logical structure and clear pedagogical features make it an appealing and accessible introductory text for students new to social theory the chapters demonstrate the relevance of social theory to everyday life such

that readers can understand and actively engage with key concepts mark murphy is reader in education public policy at the school of education university of glasgow uk his published work includes two books on social theory and education

textbook on contemporary social thought

the second edition of this remarkably lucid text provides a wide ranging historical introduction to social theory the new edition preserves and further enhances the book s striking qualities its clarity reliability comprehensiveness and scholarship the theorists treated include montesquieu adam smith and the scottish enlightenment hegel marx tocqueville maistre gobineau darwin spencer kautsky nietzsche durkheim weber simmel freud lukacs gramsci heidegger keynes hayek parsons the frankfurt school levi strauss althusser foucault habermas bourdieu beck and giddens callinicos examines the ways in which social theory grew out of the eighteenth century enlightenment a time when societies emerging in the west ceased to invoke the authority of tradition to validate themselves instead looking to scientific knowledge to justify their mastery of the world he traces social theory s connections with central themes in modern philosophy with the development of political economy and with the impact of evolutionary biology on social thought the book has been carefully updated to ensure that it engages with the most up to date debates in social theory and concludes with a substantial new chapter here callinicos assesses the significance of contemporary debates about globalization including the recent re emergence of critiques of capitalism and imperialism in the work of michael hardt toni negri luc boltanski eve chiapello david harvey robert brenner giovanni arrighi and slavoj zizek this updated version of a widely praised text will be essential reading for students of politics sociology and social and political thought

providing a concise and comprehensive introduction to both classical and contemporary social thought this volume makes social theory and social theorists accessible and meaningful

john scott has provided us with an encyclopaedic tour through the foundations and development of social theory which cautions against the contemporary fragmentation of academic work and demonstrates the continued value of sociology s heritage the book will become a key resource for students and scholars alike barry smart portsmouth university this is a comprehensive critical review of social theory that places leading contributions in their larger context written predominantly for students the scope and range of the subjects and authors dealt with results in one of the most comprehensive introductions to social theory published to date ranging from the philosophical foundations of sociology and the discovery of the social to distinctive sociological approaches to the significance of issues pertaining to gender and patriarchy to questions of modernity and post modernity the book is comprehensive in subject matter among the distinctive features of the book are clarity of exposition from a well known and respected commentator in the field focus boxes to facilitate comprehension tremendous range of material powerful organization of the material around key organizing principles the book is a major accomplishment which will quickly establish itself as the key set text in sociology and social theory courses

this thematic rather than theorist centred approach is an essential guide to the way in which the environment and social theory relate to one another including examinations of the works of the key theorists including marx mill habermas and adorno
