south africa has done well to systematically expand its educational system and to lengthen the schooling experience of successive learner cohorts but the quality of the output from the school system has been questioned in seeking to identify the reasons for this it is important to relate educational outputs competencies as measured for instance by examinations or standardized tests to inputs determining the relative contributions of the inputs of the school the household and the individual learner to educational outputs is not straightforward particularly since very little educational production function analysis has been undertaken in south africa until recently no south african school data has incorporated test results school characteristics

and information on the household circumstances of individual learners necessary for this kind of analysis however the results from a survey of a sample of schools involved in the large scale quality learning project qlp funded by the business trust have yielded such data the qlp data set offers a new analytical opportunity to address the question what are the effects of social and economic variables on educational outcomes in the qlp schools

this document is intended to address the most commonly asked questions regarding the sexual orientation of youth in school settings the goal of this resource is to assist educators curriculum and program planners school administrators policy makers and health professionals in the creation of supportive and healthy school environments for youth struggling with issues of sexual orientation preface
