this book investigates the sociohistorical making of place and people in copenhagen from around 1900 to the

present day drawing inspiration from pierre Bourdieu's sociology of social space and symbolic power and from Loïc Wacquant's hypothesis of advanced marginality and territorial stigmatisation the book explores the genesis and development of the notorious neighbourhood of Copenhagen North West as an extraordinary place the North West provides an illustrative case of Danish welfare and urban history that questions the epitome on inclusive Copenhagen through detailed empirical analysis the book spotlights three angles and entanglements of the social history of this area of Copenhagen the production of socio spatial constructions and authoritative categorisations of the neighbourhood especially by the state and the media the local social pedagogical interventions and symbolic boundary drawings by welfare agencies in the neighbourhood and the residents subjective experiences of place social divisions and dis honour in this way the making of place and people in the Danish metropolis analyses how social symbolical and spatial structures dynamically intertwine and contribute to the fashioning of divisions of inequality and marginality in the city over the course of some 125 years it will appeal to scholars of sociology urban studies and urban history with interests in social welfare

founded in 1981 in Paris Brunet Saunier Architecture is a French leader in the design of hospitals and large scale public buildings this publication is much more than a monograph it is also a professional reference work as hospital buildings make up a large portion of the showcased projects over the last ten years the architectural office has been developing a successful concept known as monospace the book discusses and analyzes this concept in detail presenting true-to-scale floor plans cross sections architectural views and other information the monospace concept which is based on a process of creative reduction down to essentials i.e. simplicity is adaptive rather than normative or prescriptive and based on probabilities rather than determinism it respects energy even when it sometimes uses it it takes the individual's experience into account and starts from the position of the subject it also permits changing perspectives this design concept should attract attention far beyond the borders of France

this report summarizes a Nordic symposium on the current use and challenges in applying a dual risk assessment approach in the setting of nutrition recommendations the symposium is timed with respect to the forthcoming update of the Nordic nutrition recommendations NNR at the symposium invited experts addressed the methodological framework for the dual risk approach for setting nutrition recommendations including the terminologies and the criteria for the assessment case studies were presented to underline some of the specific current Nordic challenges

including use of supplements especially the lack of data for risk assessment in nutrition was addressed with examples on extrapolations to subgroups such as children and the elderly and to energy and protein also the development of nutrition risk assessment using nutrient intakes and chronic disease endpoints was addressed
