this book provides a balanced assessment of china s communist rule its viability as well as its prospect of democracy the people s congresses and governance in china presents a complex but convincing analysis of the transformation of governance in china as the first systemic and theoretical study of china s provincial legislatures it draws our attention to one of the most promising growth points in china s changing constitutional order through in depth and first hand research the author provides a comprehensive explanation about why the provincial legislatures have acquired institutional maturation and expanded power in the context of chinese transitional political economy the book portrays an innovative pattern of legislative development sums up pragmatic local strategies for market creation and identifies multiple dynamics for promoting accountability and democracy based upon the case study of provincial legislatures ming xia reveals the formation of a new mode of governance in china s national politics the network structure featuring institutional arrangements and the mohe co operation through competition pattern of interaction abided by the major power players this volume will be of interest to parliamentary scholars and parliamentarians who are concerned with the role of parliaments in transitional politics and economies of both post communist and developing countries it will also appeal to students and researchers of chinese politics governance and asian studies

because most people and their countries seek wealth and power and because money and credit are the biggest single influence on how wealth and power rise and decline if one does not seek knowledge of how money works one cannot understand the biggest driver of politics within and between countries hence one cannot understand how the world order works if one doesn t understand how the world order works one can t understand the post pandemic debt tsunami that s coming i believe that the times ahead will be radically different from the times we have experienced so far in our lifetimes it is indeed quite astonishing that money ever present in our lives is so poorly understood even by many economic experts themselves this incomprehension stems from the deliberate efforts of the financial sector to obscure its activities in order to maintain its omnipotence this book seeks to address this crisis of ignorance by providing an easily understood and comprehensive

understanding of money in the hope of empowering people against finance's grip over their lives and those of their society the digital revolution post pandemic will lead to a radical departure from the traditional model of monetary exchange the creation of a digital financial market infrastructure will underpin the unbundling and re bundling of the functions of money within society although digital money itself is not new to modern economies digital legal tender dlt which exists without any ledger or central bank will facilitate instantaneous peer to peer transfers of value in a way that today is impossible the importance of digital connectedness will often supersede the importance of macroeconomic links and lead to the establishment of digital financial markets linking the currency to membership of a particular financial market rather than to a specific country capitalism underpins wealth generation and hence the existence of a free digital financial market this book seeks to transform money into a digital currency which supports a more equitable access to capital and ensure its convertibility into a universal world currency unit as digital legal tender digital currencies without borders may also cause an upheaval of the international monetary system countries that are socially or digitally integrated with their neighbours may face digital dollarization and the prevalence of systemically important platforms could lead to the emergence of digital currency areas that transcend national borders digital legal tender within a multiplicity of currencies ensures that money as a public good remains a relevant medium of exchange which achieves payment finality to all transactions additionally the universal supranational currency the world currency unit is defined to support the global transfer of value between any two people on the planet today without the need for any treaties or financial service intermediaries universal access to capital which is readily convertible to globally trusted units of account combined with a censorship resistant means of payment underpins global trade will improve market access for holders of low per unit value producers and consumers in developing and developed countries the vision is a borderless global market underpinning universal wealth creation which never closes this book defines the universe of discourse domain and hence creates a shared conceptual schema or language within which to communicate and deploy a digital currency to achieve universal legal finality to all financial transactions

this is an open access book which will bring the theme of recover together stronger together through the development of law economy and health as our commitment to continuously sharing and disseminating the development of knowledge in the field of social science and law through this conference therefore we do encourage international collaboration idea sharing and networking among experts and participants in the respected field of law economy and health discipliners

this book provides the proceedings of two meetings organised by the oecd to discuss the issue of developing social protection it brings together perspectives of experts from indonesia malaysia the philippines and thailand as well as contributions from korea and australia plus the views of igos

this detailed two volume set tells the story of the cold war the dominant international event of the second half of the 20th century through a diverse selection of primary source documents one of the most extensive to date this set of primary source documents studies the cold war comprehensively from its beginning with the emergence of the world's first communist government in russia in late 1917 to its end in 1991 all of the key events including the berlin blockade the korean war the cuban missile crisis the vietnam war and the nuclear arms race are discussed in detail the primary sources provide insight into the thinking of all participants drawing on western soviet asian and latin american perspectives in the cold war interpreting conflict through primary documents primary documents are organized chronologically allowing readers to appreciate the ramifications of the cold war within a clear time frame extensive interpretive commentary provides in depth background and context for each document this work is an indispensable reference for all readers seeking to become deeply knowledgeable about the cold war
