as a result of the open source movement there is now a great deal of reusable software available in the public domain this offers significant functionality that commercial software vendors can use in their software projects open source approaches to software development have illustrated that complex mission critical software can be developed by distributed teams of developers sharing a common goal commercial software vendors have an opportunity to both learn from the op source community as well as leverage that knowledge for the benefit of its commercial clients nonetheless the open source movement is a diverse collection of ideas knowledge techniques and solutions as a result it is far from clear how these approaches should be applied to commercial software engineering this paper has looked at many of the dimensions of the open source movement and provided an analysis of the different opportunities available to commercial software vendors references and notes 1 it can be argued that the open source community has produced really only two essential 9 products apache undeniably the most popular web server and linux although both are essentially reincarnations of prior systems both are also somewhat products of their times apache filled a hole in the then emerging at a time no platform vendor really knew how to step in and linux filled a hole in the fragmented unix market colored by the community's general anger against microsoft 2 evans marketing services linux developers survey volume 1 march 2000

surprising rules for successful monetization innovation is the most important driver of growth today more than ever companies need to innovate to survive but successful innovation measured in dollars and cents is a very hard target to hit companies obsess over being creative and innovative and spend significant time and expense in designing and building

products yet struggle to monetize them 72 of innovations fail to meet their financial targets or fail entirely many companies have come to accept that a high failure rate and the billions of dollars lost annually is just the cost of doing business monetizing innovations argues that this is tragic wasteful and wrong radically improving the odds that your innovation will succeed is just a matter of removing the guesswork that happens when you put customer demand and willingness to pay in the driver seat when you design the product around the price it's a new paradigm and that opens the door to true game change you can stop hoping to monetize and start knowing that you will the authors at simon kucher know what they're talking about as the world's premier pricing and monetization consulting services company with 800 professionals in 30 cities around the globe they have helped clients ranging from massive pharmaceuticals to fast growing startups find success in monetizing innovation they distil the lessons of thirty years and over 10 000 projects into a practical nine step approach whether you are a ceo executive leadership or part of the team responsible for innovation and new product development this book is for you with special sections and checklist driven summaries to make monetizing innovation part of your company's dna illustrative case studies show how some of the world's best innovative companies like linkedin uber porsche optimizely draeger swarovski and big pharmaceutical companies have used principles outlined in this book a direct challenge to the status quo spray and pray style of innovation monetizing innovation presents a practical approach that can be adopted by any organization in any industry most monetizing innovation failure point home now more than ever companies must rethink the practices that have lost countless billions of dollars monetizing innovation presents a new way forward and a clear promise go from hope to certainty
