with more than 1300 cross referenced entries covering every aspect of the american revolution this definitive scholarly reference covers the causes course and consequences of the war and the political social and military origins of the nation this authoritative and complete encyclopedia covers not only the eight years of the american revolutionary war 1775 1783 but also the decades leading up to the war beginning with the french and indian war and the aftermath of the conflict with an emphasis on the early american republic volumes one through four contain a series of overview essays on the causes course and consequences of the american revolution followed by impeccably researched a z entries that address the full spectrum of political social and military matters that arose from the conflict each entry is cross referenced to other entries and also lists books for further reading in addition there is a detailed bibliography timeline and glossary a fifth volume is devoted to primary sources each of which is accompanied by an insightful introduction that places the document in its proper historical context the primary sources help readers to understand the myriad motivations behind the american revolution the diplomatic military and political maneuvering that took place during the conflict and landmark documents that shaped the founding and early development of the united states

this diverse collection of profiles on women who had an impact on the revolution offers a rare window into the female experience of the burgeoning nation women of the american revolution explores the trials of war and daily life for women in the united states during the war of independence many names will be familiar such as martha washington who traveled to winter camps to care for her husband and rally the troops and abigail adams who ran the family s

farms and raised children during john s long absences others are forgotten legends like the mysterious spy agent 355 or sixteen year old sybil ludington who was said to make an all night ride to rally american forces not all american women served the side of the revolutionaries peggy shippen gambled on the loyalist side and paid severe consequences from early historian mercy otis warren to dolley madison who defined what it means to be an american first lady women of the american revolution strived to do more than they had previously thought possible during a time of hardship and civil war

a nation s own experience should be its best political guide but it is not certain that as a people we have improved by all the teachings of our own history for the reason that our patriot writers and orators mostly bound their vision in retrospect by the revolutionary era and yet all beyond that is not dark barren and profitless to explore it should be known that the most important truths on which our free forms of government now rest are not primarily the discoveries of the revolutionary sages writing of the revolution mr john adams the successor of washington declared that it was his opinion that the revolution began as early as the first plantation of the country and that independence of church and state was the fundamental principle of the first colonization has been its principle for two hundred years and now i hope is past dispute who was the author inventor discoverer of independence the only true answer must be the first emigrants before this time he had declared that the claim of the men of 1776 to the honor of first conceiving the idea of american independence or of first inventing the project of it is ridiculous i hereby disclaim all pretension to it because it was much more ancient than my nativity it was the inestimable fortune of our ancestors to have been taught the difficulties of government in two distinct schools under the colonial and provincial charters known as the first and second charters the charter government as moulded and modelled by our ancestors was as perfect as is our own constitution of today it was as tender of common right as antagonistic to special privilege to classes or interests and as sensitive too to popular impulses good or evil and it is thus in all self governing communities that their weal or woe being supposedly in their own keeping the freest forms of delegated government written on parchment are in themselves no protection but will be such instruments of blessing or of destruction as may best gratify the controlling influences or interests for the time being in tracing the origin and development of the sentiment and the desires the fears and the prejudices which culminated in the american revolution in the separation of thirteen colonies from great britain it is necessary to notice the early settlement and

progress of those new england colonies in which the seeds of that revolution were first sown and nurtured to maturity the colonies of new england were the result of two distinct emigrations of english puritans two classes of puritans two distinct governments for more than sixty years one class of these emigrants now known as the pilgrim fathers having first fled from england to holland thence emigrated to new england in 1620 in the mayflower and named their place of settlement new plymouth here they elected seven governors in succession and existed under a self constituted government for seventy years the second class was called puritan fathers the first installment of their immigrants arrived in 1629 under endicott the ancestor of mr joseph chamberlain s wife they were known as the massachusetts bay company and their final capital was boston which afterwards became the capital of the province and of the state the characteristics of the separate and independent governments of these two classes of puritans were widely different the one was tolerant non persecuting and loyal to the king during the whole period of its seventy years existence the other was an intolerant persecutor of all religionists who did not adopt its worship and disloyal from the beginning to the government from which it held its charter and sedulously sowed and cultivated the seeds of disaffection and hostility to the royal government until they grew and ripened into the harvest of the american revolution english puritanism transferred from england to the head of massachusetts bay in 1629 presents the same characteristics which it developed in england in massachusetts it had no competitor it developed its principles and spirit without restraint it was absolute in power from 1629 to 1689 during these sixty years it assumed independence of the government to which it owed its corporate existence it made it a penal crime for any immigrant to appeal to england against a local decision of courts or of government it permitted no oath of allegiance to the king nor the administration of the laws in his name it allowed no elective franchise to any episcopalian presbyterian baptist quaker or papist every non member of the congregational church was compelled to pay taxes and bear all other puritan burdens but was allowed no representation by franchise nor had he eligibility for any public office when the puritans of the massachusetts bay company emigrated from england they professed to be members of the church of england but endicott who had imbibed views of church government and of forms of worship determined not to perpetuate here the worship of the established church to which he had professed to belong when he left england but to establish a new church with a new form of worship he seemed to have brought over some thirty of the immigrants to his new scheme but a majority either stood aloof from or were opposed to his extraordinary proceeding among the most noted adherents of the old church of the reformation

were two brothers John and Samuel Brown who refused to be parties to this new and locally devised church revolution and resolved for themselves their families and such as thought with them to continue to worship God according to the custom of their fathers it is the fashion of many American historians as well as their echoes in England to apply epithets of contumely or scorn to these men both the Browns were men of wealth one a lawyer the other a private gentleman and both of them were of a social position in England much superior to that of Endicott they were among the original patentees and first founders of the colony they were church reformers but neither of them a church revolutionist the brothers were brought before the governor who informed them that New England was no place for such as they and therefore he sent them both back to England on the return of the ships the same year Endicott resolved to admit of no opposition they who could not be terrified into silence were not commanded to withdraw but were seized and banished as criminals
