the real history of israel and the palestinians no history is so disputed as the history of israel some see israel s creation as a dramatic act of justice for the jewish people others insist that it was a crime against palestine s arabs author david brog untangles the facts from the myths to reveal the truth about the arab israeli conflict in reclaiming israel s history you ll learn how the jewish people have maintained a continual presence in the land of israel for over 3 000 years despite centuries of roman byzantine and muslim persecution how the romans invented the word palestine as a way to sever the connection between the jewish people and their land and how subsequent conquerors doubled down on this strategy how modern jewish immigration to palestine did not displace arabs but instead sparked an arab population boom and the largely untold story of how the leader of palestine s arabs collaborated with the nazis to murder jews in europe before they could reach their ancestral homeland you ll also learn why most of palestine s arabs never identified themselves as palestinians until after the 1967 war the extraordinary lengths to which israel s military goes to protect palestinian civilians and the high price israel s soldiers pay for this morality and how the palestinians have on separate occasions rejected israel s offers of a palestinian state in virtually all of the west bank and gaza brog frankly admits to israel s sins both large and small but notes that in any fair minded analysis these have been far out weighed by israel s commitment to western values including freedom democracy and human rights honest provocative and timely especially given rising anti semitism and the aggressive delegitimization of israel david brog s reclaiming israel s history is the book for every reader who wants to understand what is really happening in the middle east
