china has been undertaking unprecedented ecological restoration efforts to deal with its problems of soil erosion flooding dust storms and habitat loss while there have been studies of these efforts questions remain concerning whether they have been effectively implemented what their induced socioeconomic and ecological impacts are and how their performance can be improved tackling these important questions in an integrated manner an integrated assessment of china s ecological restoration programs is extraordinary for its broad coverage and methodological rigor it provides a substantial improvement over the conventional approach of simply reporting projects undertaken and accepting uncritically the government assessment and thus

fills an important knowledge gap of the restoration efforts being implemented upon a variety of ecosystems in china

this collection provides an overview of china s rural politics bringing scholarship on agrarian politics from various social science disciplines together in one place the twelve contributions spanning history anthropology sociology environmental studies political science and geography address enduring questions in peasant studies including the relationship between states and peasants taxation social movements rural urban linkages land rights and struggles gender relations and environmental politics taking rural politics as the power inflected processes and struggles that shape access and control over resources in the countryside as well as the values ideologies and discourses that shape those processes the volume brings research on china into conversation with the traditions and concerns of peasant studies scholarship it provides both an introduction to those unfamiliar with chinese politics as well as in depth new research for experts in the field this book was published as a special issue of the journal of peasant studies

this volume contains the papers presented at the 2014 international conference on environmental protection and sustainable ecological development epsed2014 the contributions cover the latest research results and explore new areas of research and development like earth science resource management environmental protection and sustainable

abstract this chapter defines food security as the condition reached when a nation s population has access to sufficient safe and nutritious food to meet its dietary needs and food preferences it stresses china s importance to global food security because of its population size the chapter introduces the contents of the volume and then treats briefly food security in ancient and dynastic 211 bc 1912 china it examines environmental stressors such as population growth natural disasters and insect pests as well as imperial responses for example irrigation flood control storage and transportation systems the chapter also briefly introduces the republican era 1912 1949 and compares environmental stressors and government responses then to those of the imperial period keywords food system food security food production regions environmental stressors population growth natural disasters insect pests and plant diseases deforestation climate change irrigation systems flood control grand canal 1 1 the problem of food security and environmental change food is the material basis to human survival and in each nation state providing a system for the development production and distribution of food and its security is a primary national objective many forces have influenced the food security of peoples since ancient times with particular challenges from natural disasters floods famines drought and pestilence and growing populations globally

this wide ranging and path breaking collection of essays on china s environmental crisis takes a new approach transcending the typical gloom and doom media and scholarly report on china s environmental crisis to address how the chinese political and social systems were impacted and how they responded or should respond to the ecological challenges confronting china therefore this collection provides innovative analyses about the impacts and responses both domestically and globally of china s political and social systems encompassing its social values ameliorative and preventative policies it leaves us with such an important question to ponder what social action will be needed in the near and long term future in order to avoid environmental disaster as well as to achieve environmental sustainability and social justice for the long term in china

choice experiments have been widely used in developed countries to assist in the development of public sector policies and private sector strategies this text demonstrates the applicability of the technique in the developing world
