the fascinating story of the young woman who made the historic lewis and clark expedition possible

kessler supplies both the biography of a legend and an explanation of why that legend has endured sacagawea is one of the most renowned figures of the american west a member of the shoshone tribe she was captured by the hidatsas as a child and eventually became one of the wives of a french fur trader

toussaint charbonneau in 1805 charbonneau joined lewis and clark as the expedition's interpreter sacagawea was the only woman to participate in this important mission and some claim that she served as a guide when the expedition reached the upper missouri river and the mountainous region although much has been written about the historical importance of sacagawea in connection with the expedition no one has explored why her story has endured so successfully in euro american culture in an examination of representative texts including histories works of fiction plays films and the visual arts from 1805 to the present kessler charts the evolution and transformation of the legend over two centuries and demonstrates that sacagawea has persisted as a euro american legend because her story exemplified critical elements of america's foundation myths especially the concept of manifest destiny kessler also shows how the sacagawea legend was flexible within its mythic framework and was used to address cultural issues specific to different time periods including suffrage for women taboos against miscegenation and modern feminism

the nineteenth century revisited the new historical fiction explores the renaissance of the american historical novel at the turn of the twenty first century the study examines the revision of nineteenth century historical events in cultural products against the background of recent theoretical trends in american studies it combines insights of literary studies with scholarship on popular culture the focus of representation is the long nineteenth century a period from the early republic to world war i as a key epoch of the nation building project of the united states the study explores the constructedness of historical tradition and the cultural resonance of historical events within the discourse on the contemporary novel and the theory formation surrounding it at the center of the discussion are the unprecedented literary output and critical as well as popular success of historical fiction in the usa since 1995 an additional postcolonial and transatlantic perspective is provided by the incorporation of texts by british and australian authors and especially by the inclusion of insights from neo victorian studies the book provides a critical comment on current and topical developments in american literature culture and historiography

this collection studies the representations of the character of the monarch in literature and cinema being a person an institution a character archetype and a narrative role the characters of the monarch and other royal or regal characters oscillate between humanity and the non human as such they

are hybrid forms of existence and subjectivity the authors of this collection explore this hybridity across large spectra of genres historical periods and cultural contexts some of the most prolific and widely read scholars analyze the archetype of the monarch on the page the stage and the screen they cover large swathes of intersecting creative and interpretive territories including ancient epic and religious poetry arthurian legends british renaissance and modern drama british horror films and hollywood crime and sports films this collection also features interviews with six prominent comic book writers and artists who discuss the influence of classical royal archetypes on their works

traces the historical dimensions of native north american drama using a critical perspective

retells the story of american legend sacajawea the young shoshoni woman who traveled with lewis and clark on their expedition to the west jacket

american stories follows the evolution of our founding stories and myths and how they spread far and wide throughout our history the story of the cherry tree for example tells us nothing about george washington s actual childhood but surely it tells us something about what americans wanted in the father of their country an incorruptible leader of the people along the same lines the story of betsy ross s flag tells us nothing about how the stars and stripes came to be but does tell us something about what americans wanted in a founding mother it is no coincidence that the ross story featuring a traditional woman s role of sewing at home was first told in 1870 one year after elizabeth cady stanton and susan b anthony challenged these roles by founding the national woman suffrage association there s another reason these stories spread and that provides another reason to follow their evolution from dodge city to deadwood and from bunker hill to san juan hill and beyond these stories all have one thing in common they are all a lot of fun to read

despite a recent increase in the productivity and popularity of indigenous playwrights in canada most critical and academic attention has been devoted to the work of male dramatists leaving female writers on the margins in indigenous women s theatre in canada sarah mackenzie addresses this critical gap by focusing on plays by indigenous women written and produced in the socio cultural milieux of twentieth and twenty first century canada closely analyzing dramatic texts by monique

mojica marie clements and yvette nolan mackenzie explores representations of gendered colonialist violence in order to determine the varying ways in which these representations are employed subversively and informatively by indigenous women these plays provide an avenue for individual and potential cultural healing by deconstructing some of the harmful ideological work performed by colonial misrepresentations of indigeneity and demonstrate the strength and persistence of indigenous women offering a space in which decolonial futurisms can be envisioned in this unique work mackenzie suggests that colonialist misrepresentations of indigenous women have served to perpetuate demeaning stereotypes justifying devaluation of and violence against indigenous women most significantly however she argues that resistant representations in indigenous women s dramatic writing and production work in direct opposition to such representational and manifest violence
