why should i do business with you and not your competitor whether you are a retailer manufacturer distributor or service provider if you cannot answer this question you are surely losing customers clients and market share this eye opening book reveals how identifying your competitive advantages and trumpeting them to the marketplace is the most surefire way to close deals retain clients and stay miles ahead of the competition the five fatal flaws of most companies they don t have a competitive advantage but think they do they have a competitive advantage but don t know what it is so they lower prices instead they know what their competitive advantage is but neglect to tell clients about it they mistake strengths for competitive advantages they don t concentrate on competitive advantages when making strategic and operational decisions the good news is that you can overcome these costly mistakes by identifying your competitive advantages and creating new ones consultant public speaker and competitive advantage expert jaynie smith will show you how scores of small and large companies substantially increased their sales by focusing on their competitive advantages when advising a ceo frustrated by his salespeople s inability to close deals smith discovered that his company stayed on schedule 95 percent of the time an achievement no one else in his industry could claim by touting this and other competitive advantages to customers closing rates increased by 30 percent and so did company revenues jack welch has said if you don t have a competitive advantage don t compete this straight to the point book is filled with insightful stories and specific steps on how to pinpoint your competitive advantages develop new ones and get the message out about them

for courses in strategy strategic management for professors who want students to see connections between big ideas in strategy thus understanding vs memorizing barney hesterly provides an organizing framework vrio as the foundation of the text students have a clear decision making framework to use in analyzing cases and business situations

strategy as action presents an action plan for how firms can build improve and defend their competitive advantage at every stage of their life cycle

michael porter is recognized as one of the top authorities on corporate strategy and business competition the historical review of strategic management clearly shows that porter s research has bridged up two general paradigms before and after the 1980s thus

helping both researchers and practitioners to better understand unanticipated global changes his two generic strategies costs and diversification the two interdependent strategic options are key in the context of the competitiveness of orthodox microeconomic theory this is where porter went further constructing a popular value chain concept that provides the ability to disaggregate the key activities of business process in creating products and services in terms of cost analysis and value creation this book is a collection of seven interconnected chapters that provides a coherent understanding of michael porter s contribution to the field of strategic management it addresses key changes and challenges in the global business environment the value chain concept has become highly applicable in both theory and practice in the book the authors offer an original interpretation of the porters research on strategic management in order to unravel or simplify his key theoretical concepts it will be of interest to researchers academics practitioners and students in the fields of strategic management and international business

now beyond its eleventh printing and translated into twelve languages michael porter s the competitive advantage of nations has changed completely our conception of how prosperity is created and sustained in the modern global economy porter s groundbreaking study of international competitiveness has shaped national policy in countries around the world it has also transformed thinking and action in states cities companies and even entire regions such as central america based on research in ten leading trading nations the competitive advantage of nations offers the first theory of competitiveness based on the causes of the productivity with which companies compete porter shows how traditional comparative advantages such as natural resources and pools of labor have been superseded as sources of prosperity and how broad macroeconomic accounts of competitiveness are insufficient the book introduces porter s diamond a whole new way to understand the competitive position of a nation or other locations in global competition that is now an integral part of international business thinking porter s concept of clusters or groups of interconnected firms suppliers related industries and institutions that arise in particular locations has become a new way for companies and governments to think about economies assess the competitive advantage of locations and set public policy even before publication of the book porter s theory had guided national reassessments in new zealand and elsewhere his ideas and personal involvement have shaped strategy in countries as diverse as the netherlands portugal taiwan costa rica and india and regions such as massachusetts california and the basque country hundreds of cluster initiatives have flourished throughout the world in an era of intensifying global competition this pathbreaking book on the new wealth of

nations has become the standard by which all future work must be measured

seminar paper from the year 2003 in the subject business economics offline marketing and online marketing grade a university of otago marketing department language english abstract radical innovation is innovation that has the power to change customer expectations alter industry economics and redefine the basis for competitive advantage gary hamel in leading the revolution 1 introduction companies have always tried to create and capitalize on competitive advantages ensuring profitability and long term survival due to the increasing competition in most markets mainly caused by globalization liberalisation and better information of the customers the need to gain advantages in competition is now more essential than ever relevant to the quotation above this essay discusses the proposition of gary hamel that innovation is the key to achieve this goal additionally the links between innovation and competitive advantage are examined

why are reviewers so enthusiastic about jay barney s gaining and sustaining competitive advantage because this new book demonstrates how to put theory into practice creating an exciting new perspective on the field of strategy and its applications as dr barney says in his preface there really isn t anything quite as practical as a good theory this cutting edge text develops a framework that emphasizes the importance of understanding not only the threats and opportunities in a firm s competitive environment but also the competitive implications of a firm s organizational strengths and weaknesses focuses on the specific strategic options that firms may choose in order to gain a competitive advantage features detailed coverage of the resource based view of the firm tacit collusion product differentiation strategic alliances and other key topics and presents real world examples from microsoft disney wal mart and other important organizations

in this book leading scholars from a range of disciplines including strategic management economic development economic geography and planning assess the contribution that michael porter one of the most influential figures in strategic management research has made to these respective academic fields

business ethics is the set of practices and policies that companies use to guide them through decisions about finances negotiations and deals corporate social responsibility and more without a strong set of ethics a business can run afoul of the law and encounter financial pitfalls and moral dilemmas the objective of this book is a practical fair balanced and objective treatment of the role of ethics in the business performance of companies in competitive markets that demonstrates how ethics affects business culture

strategy decision making and value creation which then determine competitiveness and business viability the universality of corruption and the prevalence of unethical conduct is the background from which the narrative describes how ethical issues enter all functional areas the ethics effects on the complexity of decisions and challenges are examined and the questions of why bother with ethical business and whether businesses invite government regulation are answered next a framework is developed to identify and trace links and influences of business ethics on strategic decisions corporate culture and decision making the effects of strategy and culture on key business success factors and their interdependence are reviewed along with those with competitive advantage elements these assessments then form the basis of characterizing competitive advantage in the framework developed decision making and strategy links with competitive advantage elements and the inter competitive advantage element interactions are evaluated along with competitive advantage organizational effects the uniqueness of this book is the creation of a method to identify and assess how ethics impacts business decisions and competitive advantage based on accepted economic tenants it lays the plan for quantitative assessments of the impact of ethical behavior and it is written from the perspective of a business economist other books deal with business ethics elements only none explains how ethics effects permeate business sustainability the main contribution of this book is demonstrating that ethics is a necessary factor for business sustainability it provides insights to regulators at all government levels counterbalances ethicist claims about business ethics and points out how ethical business conduct affects the economy

the field of social entrepreneurship is attracting attention from multiple industries social entrepreneurs are responsible for finding ways to creatively contribute to society by providing affordable products and services creating business value and competitive advantage with social entrepreneurship is a useful scholarly resource that examines the broad topic of social entrepreneurship by looking at relevant theoretical frameworks and fundamental terms focused on topics such as creating business value promoting social entrepreneurship and enacting programs of social change this book provides the latest research and practical solutions concerning social entrepreneurship the source proves valuable to academicians researchers entrepreneurship practitioners and individuals interested in learning more about social entrepreneurship

now beyond its eleventh printing and translated into twelve languages michael porter s the competitive advantage of nations has changed completely our conception of how prosperity is created and sustained in the modern global economy porter s

groundbreaking study of international competitiveness has shaped national policy in countries around the world it has also transformed thinking and action in states cities companies and even entire regions such as central america based on research in ten leading trading nations the competitive advantage of nations offers the first theory of competitiveness based on the causes of the productivity with which companies compete porter shows how traditional comparative advantages such as natural resources and pools of labor have been superseded as sources of prosperity and how broad macroeconomic accounts of competitiveness are insufficient the book introduces porter s diamond a whole new way to understand the competitive position of a nation or other locations in global competition that is now an integral part of international business thinking porter s concept of clusters or groups of interconnected firms suppliers related industries and institutions that arise in particular locations has become a new way for companies and governments to think about economies assess the competitive advantage of locations and set public policy even before publication of the book porter s theory had guided national reassessments in new zealand and elsewhere his ideas and personal involvement have shaped strategy in countries as diverse as the netherlands portugal taiwan costa rica and india and regions such as massachusetts california and the basque country hundreds of cluster initiatives have flourished throughout the world in an era of intensifying global competition this pathbreaking book on the new wealth of nations has become the standard by which all future work must be measured
