in this invaluable guide a renowned international consultant teaches you how to identify and

leverage your company's competitive advantage to grow your business and stand out from the competition ought to be mandatory reading for all entrepreneurs. *miami herald* why should i do business with you and not your competitor? whether you are a retailer, manufacturer, distributor, or service provider, if you cannot answer this question, you are surely losing customers, clients, and market share. this eye-opening book reveals how identifying your competitive advantages and trumpeting them to the marketplace is the most surefire way to close deals, retain clients, and stay miles ahead of the competition. the five fatal flaws of most companies: they don't have a competitive advantage but think they do; they have a competitive advantage but don't know what it is, so they lower prices; instead, they know what their competitive advantage is but neglect to tell clients about it; they mistake strengths for competitive advantages; they don't concentrate on competitive advantages when making strategic and operational decisions. the good news is that you can overcome these costly mistakes by identifying your competitive advantages and creating new ones. in *creating competitive advantage*, consultant, public speaker, and competitive advantage expert jaynie smith shows you how scores of small and large companies substantially increased their sales by focusing on their competitive advantages. when advising a ceo frustrated by his salespeople's inability to close deals, smith discovered that his company stayed on schedule 95 percent of the time, an achievement no one else in his industry could claim by touting this and other competitive advantages to customers. closing rates increased by 30 percent, and so did company revenues. jack welch has said, "if you don't have a competitive advantage, don't compete." this straight-to-the-point book is filled with insightful stories and specific steps on how to pinpoint your competitive advantages, develop new ones, and get the message out about them.

focusing on business-to-customer (b2c) internet business and on firms that offer intangible products and/or services that can be directly consumed via the world wide web, *strategic management and online selling* also covers immaterial products and online news information or home banking. considering how firms with similar specific characteristics are able to realize competitive advantages, this topical book discusses an area of particular contemporary importance and increasing academic study.

the economic environment is global, highly sophisticated, and in continuous fast flux. the challenge for business leaders, executives, and strategists is to read and respond agilely to trends and underlying movements to stay ahead of dynamic market flow and change. *creating competitive advantage* sets out a compelling case for the business benefits of better market anticipation and provides tools and approaches to develop a forward-looking strategy that will deliver these through theory, case studies, and practical insights. the book demonstrates how better analysis of market trends and scanning of the environment combined with business model change and confident leadership can gain and maintain

competitive advantage with the right approach game changing strategy can be highly accessible for all business strategists and owners rather than as today the almost exclusive reserve of a few brave and instinctive entrepreneurs with tools assessments and models to get more value out of the business data you already have and take your strategy to the next level through analytically supported intuition creating competitive advantage gives business leaders and strategists the toolkit to move from a responsive mindset to a leading one online supporting resources for this book include downloadable figures and tables from the book

strategic management creating competitive advantage 4th edition by the prestigious authors dess lumpkin eisner provide solid treatment of traditional topics in strategic management as well as thorough coverage of contemporary topics such as digital internet strategies innovation corporate entrepreneurship knowledge management and intellectual assets this text's accessible writing style and wealth of new and updated illustrations which clarify the most difficult topics make this text the best resource for your students
