Bob de Wit and Ron Meyer's innovative and extremely successful strategy text encourages critical and creative strategic thinking by introducing articles from key strategists to present differing perspectives on each strategic issue covered. The authors stress and contrast the diversity of views in the subject without endorsing any one approach.

The purpose of this book is to focus on the contribution of one of the most prominent scholars in the strategy field, Michael Porter. From both a practitioner that is

chief executive officer ceo perspective and from a research perspective using such a dual perspective may improve the relevance of strategy research for the business community four leading chief executives two from european multinationals royal dutch shell group and unilever n v and two from important dutch public organizations the port of rotterdam and the ministry of economic affairs were invited to reflect on porter s contributions to four levels of analysis 1 business level strategy 2 corporate level strategy 3 regional competitiveness and finally 4 national competitiveness against this background the book is structured as follows chapters 2 to 8 deal with the four mentioned levels of analysis from a dual perspective theoretical and managerial the two final chapters aim to find out how porter s theories are related to each other and whether and how the different levels of analysis can be connected

this book constitutes the thoroughly refereed proceedings of the first international symposium on data driven process discovery and analysis held in campione d italia italy in june july 2011 the 11 revised full papers were carefully selected from 31 submissions in addition to the thorough review process the lively discussions at the event itself also helped the authors to improve their papers and to foster interesting extensions the selected papers cover a wide range of topics spanning from theoretical issues related to process representation to practical experience in process discovery and analysis
