boredom as an impetus for architectural theory and practice any theorist or practitioner of architecture must confront and even be compelled by boredom called ennui langeweile or acedia boredom is a pressing concern as the production and obsolescence of images accelerates with new technologies leaving individuals saturated with information presented in fleeting displays that are easy to produce easy to delete and easy to consume in this innovative book andreea mihalache discusses the work of a quartet of well known thinkers designer bernard rudofsky architects robert venturi and denise scott brown and artist saul steinberg who all recognized this form of exhaustion and shallowness as the disease of the modern world rudofsky found it in a deeper and more intimate engagement between the human body and its environment proclaiming less is a bore venturi and later scott brown explored excess as the remedy to boredom with detachment and irony steinberg mocked the homogenous architecture of the american city taken together mihalache shows these four offer a comprehensive view of the alienated relationship of individuals with their world at three different yet interrelated scales the body the building and the urban space

the classic architectural reference updated with contemporary examples and interactive resources for more than forty years the beautifully illustrated architecture form space and order has served as the classic introduction to the basic vocabulary of architectural design the updated and revised fourth edition features the fundamental elements of space and form and is designed to encourage critical thought in order to promote a more evocative understanding of architecture architecture form space and order distills complex concepts of design into a clear focus and brings

difficult abstractions to life the book explains form and space in relation to light view openings and enclosures and explores the organization of space and the elements and relationships of circulation as well as proportion and scale in addition the text s detailed illustrations demonstrate the concepts presented and reveal the relationships between fundamental elements of architecture through the ages and across cultures this edition includes an access card with a redemption code for the online interactive resource center which features thirty five animations flashcards of key architectural terms and an image gallery showcasing hundreds of photos that enrich the book s content

first published in 2005 an architecture of invitation colin st john wilson is a distinctive study of the life and architectural career of one of the most significant makers theorists and teachers of architecture to have emerged in england in the second half of the twentieth century exceptionally in an architectural study this book interweaves biography critical analysis of the projects and theory in its aims of explicating the richness of wilson s body of work thought and teaching drawing on the specialisms of its authors it also examines the creative and psychological impulses that have informed the making of the work an oeuvre whose experiential depth is recognised by both users and critics
