the economics major is a central part of a college education is that economics major  
doing what it is meant to do and if not how should it be changed this book provides a  
provocative discussion of the economics major by many of the leaders in us economic  
education it questions issues such as whether the disciplinary nature of  
undergraduate education is squeezing out the big think questions and replacing them  
with little think questions and whether we should change graduate training of  
economists to better prepare them to be teachers rather than researchers

with the costs of war dominating our economic news and discussions paul poastâ s new text is a needed relevant and thought provoking new offering written in an extremely accessible manner the book is an interesting addition to a course at any level the bookâ s low price makes it a perfect complement to a principles text a social issues book or any upper level course on war or international security into which an instructor would like to add some economic data or theory
