as the czech ambassador to the united states h e petr gandalovic noted in his foreword to this book that mla rechcigl has written a monumental work representing a culmination of his life achievement as a historian of czech america the encyclopedia of bohemian and czech american biography is a unique and unparalleled publication the enormity of this undertaking is reflected in the fact that it covers a universe starting a few decades after the discovery of the new world through the escapades and significant contributions of bohemian jesuits and moravian brethren in the seventeenth and eighteenth centuries the mass migration of the czechs after the revolutionary year of 1848 and up to the early years of the twentieth century and the influx of refugees from nazism and communism the encyclopedia has been planned as a representative a comprehensive and authoritative reference tool encompassing over 7 500 biographies this prodigious and unparalleled encyclopedic vade mecum reflecting enduring contributions of notable americans with czech roots is not only an invaluable tool for all researchers and students of czech american history but is also a carte blanche for the czech republic which considers czech americans as their own and as a part of its magnificent cultural history

apart from a few articles no comprehensive study has been written about the learned men and women in america with czechoslovak roots that s what this compendium is

all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their european ancestral homes or whether they have descended from them czech and slovak immigrants including bohemian jews have brought to the new world their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home this accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates the monograph has been organized into sections by subject areas i e scholars social scientists biological scientists and physical scientists each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study the selection of individuals has been strictly based on geographical ground without regards to their native language or ethical background this was because under the habsburg rule the official language was german and any nationalistic aspirations were not tolerated consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt doing it in any other way would be a mere guessing and thus less objective
