this edited book draws from work that focuses on the act of telling family stories as well as their content and structure the process of telling family stories is linked to central aspects of development including language acquisition affect regulation and family interaction patterns this book extends across traditional developmental psychology personality theory and family studies

drawing broadly on the epigenetic framework for individual development articulated by Erik Erikson as well as on conceptions of the family life cycle the editors bring together contemporary examples of psychological research on family stories and their implications for development and change at different points in the life course the book is divided into sections that focus on family stories at different points in the life cycle from early childhood and the beginnings of narrative skill through adolescence young adulthood midlife and then mature adulthood and its intergenerational meaning during each of these periods of the life cycle research focusing on individual development within an Eriksonian framework of ego strengths and virtues is highlighted the dynamic role of family stories is also featured here with work exploring the links between family process intergenerational attachment and storytelling sociocultural theories that emphasize how such development is situated in the wider cultural context are also featured in several chapters this broad lifespan developmental focus serves to integrate the exciting diversity of this work and foster further questions and research in the emerging field of family narrative the book is intended primarily for researchers and advanced level students in the fields of developmental and personality psychology as well as those in family studies and in gerontology it may also be of interest to those in the helping professions who are concerned with family therapy and family issues and may due to its content and illustrative material have appeal to a wider market of the lay public the chapters are written in a readily accessible style and the analyses are presented in a fairly non technical way because family stories are charted across the lifespan it would be a suitable companion book to a more traditional lifespan textbook in certain courses

every family has stories worth preserving what if you could capture them in a quilt that speaks volumes without saying a word quilts have always been more than fabric and thread they re visual narratives passed down through generations now you can learn to design and create meaningful memory quilts that tell your unique story even if you ve never touched a sewing machine

with a synthesis of research on issues key to understanding family interaction as well as an analysis of many theoretical and methodological choices made by researchers studying family communication the handbook serves to advance the field by reframing old questions and stimulating new ones the contents are comprised of chapters covering theoretical and methodological issues influencing current conceptions of family research and theory centering around the family life course communication occurring in a variety of family forms individual family members and their relationships dynamic communication processes taking place in families family communication embedded in social cultural and physical contexts key changes to the second edition include updates throughout providing a thorough and up to date overview of research and theory new topics reflecting the growth of the discipline including chapters on singles as family members emerging adults and physiology and physical health highlighting the work of scholars across disciplines communication social psychology clinical psychology sociology family studies and others this volume captures the breadth and depth of research on family communication and family relationships the well known contributors approach family interaction from a variety of theoretical perspectives and focus on topics ranging from the influence of structural characteristics on family relationships to the importance of specific communication processes

Ferdinandus van Sycklin ca 1635 ca 1712 emigrated from Holland Netherlands to Kings County Long Island New York in 1652 he married Eva Antonis Jansen about 1660 and settled as pioneers on Long Island descendants chiefly spelling surname van Sicklen or or van Sickle and relatives lived in New York New Jersey Ohio Indiana Wisconsin Minnesota and elsewhere

Family Communication Cohesion and Change encourages students to observe family interaction patterns analytically and relate communication theories to family interactions using a framework of family functions first person narratives and current research Family Communication Cohesion and Change emphasizes the diversity of today s families in terms of structure ethnic patterns and

developmental experiences

discusses how different families preserve their history and cultural traditions
