it has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the

fabric of historical events it is not that the facts of history have changed no one will dispute that the battle of waterloo occurred on june 11 1815 or that the allied invasion of europe began on june 6 1944 what each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation by examining the facts of history from a new perspective today s historians hope to reveal some new truth that will not only illuminate the course of history but also validate contemporary values and societal ideals although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today s organizational cultural and economic realities hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities

the book is primarily intended for use as a college textbook for teaching project management at the advanced undergraduate or master s level the text is appropriate for classes on the management of service product engineering projects as well as information systems is thus we have included some coverage of material concerning information systems and how projects differ from and are similar to regular business projects the authors draw upon their personal experiences working with project managers and on the experience of friends and colleagues who have spent much of their working lives serving as project managers in the real world thus in contrast to the books that are about project management this book teaches students how to do project management project management a managerial approach 5e addresses project management from a management perspective rather than a cookbook special area treatise or collection of loosely associated articles it addresses the basic nature of managing all types of projects public business engineering information systems and so on as well as specific techniques and insights required to carry out this unique way of getting things done it deals with the problems of selecting projects initiating them and operating and controlling them it discusses the demands made on the project manager and the nature of the manager s interaction with the rest of the parent organization it covers the difficult problems associated with conducting a project using people and organizations that represent different cultures and may be separated

by considerable distances it even covers the issues arising when the decision is made to terminate a project

in 2013 the world tourism organization reported that more than one billion international overnight tourist trips occurred globally during the previous year aside from the impressive number the achievement was even more remarkable given the lingering effects of the global financial crisis
