this book features mcqs and emqs two key components of many postgraduate surgical examinations and is designed to be an accessible self learning tool the questions provided are typical of those that appear in the mrcs afrcsed and similar examinations and detailed answers along with explanatory notes to assist the reader are provided throughout

this book is a valuable resource designed to enhance the way medical professionals and surgeons approach the field of general surgical oncology and designed to approach general surgical oncology in multiple choice questions mcq style with sixteen comprehensive chapters filled with more than 500 mcqs this book promises to be a game changer for anyone seeking to excel in cancer surgery it reinforces readers knowledge in short understandable and to the point information

sign the book surgery for medical students covers more than 250 mcqs with answers

with over 1000 questions mcqs and emqs in surgery is the ideal self assessment companion guide to bailey love s short practice in surgery the book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within bailey love sub divided into 13 subject s

with over 1000 essential questions mcqs and emqs in surgery is the ideal self assessment companion guide to bailey love s short practice in surgery 26th edition the book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in bailey lo

a complete guide to passing your surgical finals this comprehensive new guide tests your knowledge of general surgery upper gi lower gi vascular urology trauma and orthopaedics

breast surgery paediatric surgery otolaryngology plastic surgery maxillofacial surgery cardiothoracic surgery and neurosurgery using a variety of question types

this unique collection of multiple choice questions mcqs is specifically written to help surgical trainee candidates prepare for part one of the frcs general surgery exit examination which features mcqs on general surgery the book helps candidates gauge the types of questions likely to be asked and the extent of preparation required for this examination the wide range of surgical topics covered including general surgery and emergency surgery in addition to endocrine vascular upper gi hepatobiliary colorectal and transplant surgery also makes it a useful revision text for mrcs examination candidates

an mcq revision book and companion to applied basic science for basic surgical training edited by andrew raftery this mcq book contains 250 questions each of standard five part format with detailed answers all corresponding to the chapters of the textbook and to the syllabus for the mrcs afrcs all answers are cross referenced to the main textbook for further information

a series of mcqs based on the contents of hamilton bailey s demonstrations of physical signs in clinical surgery 18th edition over the course of 18 editions hamilton bailey s demonstrations of physical signs in clinical surgery has become an essential reference for the surgeon illustrating in detail the various signs and symptoms with which surgical patients present mcqs on surgical diagnosis is a companion volume fully cross referenced to the main work using a familiar mcq format it tests the knowledge and understanding of diagnosis of the surgical patient

this text has been designed as a supplement to the textbook of surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery there are two types of multiple choice questions type a and type x type a have a single best response from five alternatives and are designed to test judgmental ability type x questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application the text is set out in three sections

the first containing type a questions the second containing type x questions and the third containing short answer questions that emphasize clinical management problems in each section the questions are presented in the sequence used in textbook of surgery the number of questions for each general topic relate to the relative importance ascribed to each topic in order to provide balance the answers are accompanied by a reference to the chapter s in the textbook of surgery where the information required to answer the specific question is presented

the goals of our book are to prepare students for final examinations and to prime them and young surgeons to face the real world of surgical practice to achieve these goals we have been listening to feedback from students and colleagues whose advice has been invaluable accordingly in this fourth edition we have made changes in the content as well as the format we have been warned that many eager students move to the provided adjacent answer before allowing time to solve a question on their own the advice was to move answers to the end of each chapter we hope this change will generate in students enough sense of excitement and curiosity to motivate them to think analyze and choose the most appropriate diagnosis and management we have made more extensive changes in the content the number of plain mcqs has risen from 678 to 753 two new section of clinical photographs and clinical imaging based questions have added further 117 mcqs stress has been laid on more case scenario questions with the aim of consolidating knowledge obtained from textbooks and adapting it for use under common surgical situations we still encourage students to use this book for evaluation of their grasp of the science of surgery and for the purpose of a quick review before examinations we hope it will be of value in this regard and that it will be as enjoyable and thought stimulating for the reader as it has been for us in the process of composing

get through intercollegiate mrcs parts 1 and 2 mcqs and emqs has been written by experienced surgeons and features four practice papers two covering each part of the examination all questions have been modelled on actual exam questions so that they accurately reflect the style and level of difficulty detailed explanations are given in the

answers to help candidates use the book as a revision aid as well as a self test book all surgical trainees preparing to sit the two parts of the mrcs examination will find this book an invaluable aid to their revision as well as keen medical students with an interest in surgery as a future career

we realize the need of students for additional sources of multiple choice questions we also appreciate their need for a quick revision before sitting for examinations this is why we put together this book multiple choice questions and rapid revision of surgery it contains more than 756 questions all of them have explanatory answers key facts to remember are included at the ends of selected chapters we hope the book will be of value for undergraduate as well as postgraduate students it therefore contains questions of different grades of difficulty this book is by no means a substitute for classic textbooks we however encourage students to go through all questions more than once in order to consolidate their surgical knowledge and to cultivate the state of mind that prepares them for the examinations

presents over 400 questions related to general surgery for students studying for surgical examinations includes analysis of most common types of multiple choice questions in examinations and explains useful approaches to each type the end chapter is in examination format for the student s self assessment the authors lecture in surgery at the university of adelaide

there is a great shortage of mcqs book in paediatric surgery to fulfil that need dr muhammad khalid syed has prepared this mcqs book this book provides in depth knowledge of paediatric surgery for each question readers are asked to select the one best answer in majority of questions it is asked to select the false option out of five possible choices the purpose of this is to provide an abundance of correct information directly rather than writing much details in answer the topics covered in this book include the abdomen with inguinal area and genitalia urology thoracic surgery head neck and soft tissue lesions orthopaedic trauma oncology and vascular and lymphatics in the end there are mcqs related to anatomy

required in paediatric surgery this book will increase your score for all paediatric surgical examination general surgical examination to cover portion of paediatric surgery and paediatric medicine examination to covers the differential diagnosis of surgical conditions
