every generation produces a counterculture icon joss whedon creator of the long running television series buffy the vampire slayer is famed for his subversive wit rich characters and extraordinary plotlines his renown has only grown with

subsequent creations including *Angel*, *Firefly*, *Dollhouse* and the innovative online series *Dr Horrible's Sing-Along Blog* through premises as unusual as a supernatural detective agency run by a vampire and a western set in outer space. Whedon weaves stories about characters forced to make commonplace moral decisions under the most bizarre of circumstances. A murder in a deserted Wyoming missile silo stirs memories of cold war fears. In this thriller of intimate family secrets and military intrigue, it's been decades since the cold war ended and just as long since anyone has been in the long abandoned tango 11 nuclear missile site in southeastern Wyoming. When Thurmond Giles, a decorated African American US Air Force veteran and warhead expert, is found murdered, dangling naked by his ankles inside a deactivated Minuteman silo, OSI investigator and Air Force fighter pilot Major Bernadette Cameron is handling the security breach. But when her inquiries into the crime are stonewalled, she has to find out why. So does Elgin Cozy Coseia, a local reporter chasing a major story but sifting through the victim's complex life and sordid death yields a wider assortment of suspects than they counted on, including a radical nuclear arms protestor, an ambitious Air Force cadet, a right wing cattle rancher with powerful political ties and a family still shaken by memories of Japanese internment camps. To connect the past with the present, Bernadette and Cozy will have to follow an unforeseen path back to the dark days of World War II through the legacy of the cold war's paranoid atomic age and to the present day all American heartland where old wounds are never forgotten nor forgiven. From the bestselling author of the C.J. Floyd series, *Astride a Pink Horse* is a mystery with a refreshingly eccentric cast and elaborately structured plot. Think Elmore Leonard, Brad Parks and Craig Johnson. *Library Journal*.

Although it lasted barely more than a season, *Dollhouse* continues to intrigue viewers as one of Joss Whedon's most provocative forays into television. The program centered on men and women who have their memories and personalities repeatedly wiped and replaced with new ones by a shadowy corporation dedicated to fulfilling the whims of the rich. This chilling scenario was used to tell stories about big issues: power and resistance, freedom and servitude, class and gender, while always returning to its central themes of identity and individuality. In Joss Whedon's *Dollhouse*, confounding purpose, confusing identity. Sherry Ginn, Alyson R. Buckman and Heather M. Porter bring together fourteen diverse essays that showcase the series' complex vision of the future. Contributors probe deeply into the fictional universe of the show by considering the motives of the wealthy clients and asking what love means when personalities are continually remade.

other essays consider the show's relations to politics philosophy and psychology and its representations of race and gender several essays explore the show's complex relationship to transhumanism considering the dark potential for dehumanization and abuse that lurks beneath the promise of turning bodies into temporary vessels for immortal downloadable personalities though a short lived series *dollhouse* has been hailed as one of television's most thoughtful explorations of classic science fiction themes as the first serious treatment of this landmark show this collection will interest science fiction scholars and whedon fans alike
