take up one idea make that one idea your life this is the way to success single minded and multifaceted the master of many subjects and devoted disciple of shri ramakrishna swami vivekananda was a global citizen far ahead of his times at once a yogi and worldly wise this early ambassador of india introduced the western world to indian civilization while he encouraged indians to discard divisive rituals and social hierarchies to build a united equal modern nation a dedicated but free thinking student a reformer teacher and writer he was an eloquent orator whose speeches especially at the world parliament of religions in chicago put indian spirituality and philosophy on the map and ignited hearts and minds everywhere his way was both of meditation and action leading from the front while humbly serving the poor he put his faith in young people and exhorted them to work towards regenerating india it is not surprising then that national youth day in india is celebrated on the birthday of swami vivekananda a leading light then and an inspiration now and forever this book brings together swami vivekananda s stellar work and words and highlights the main tenets of his life from his regrettably short but exceptional life you too can learn to be a little bit like swami vivekananda

this is a scholarly book on one of the oldest living religions of india tracing the basic tenets of vaisnavism to the hymns of rgveda the earliest religious literature of the world the author has shown how an ancient cult has developed itself by successive stages into a well formulated monotheistic system in the hands of ramanuja and his illustrious followers in the second part of the book the fundamental philosophical

theories of visistadvaita vedanta are presented to prove that vaisnavism is not a mere religious cult but has a credible philosophic foundation

this book examines above all the relationship between reason and vedic revelation and the philosophical responses to the idea of the veda it deals with such topics as dharma karma and rebirth the role of man in the universe the motivation and justification of human actions the relationship between ritual norms and universal ethics and reflections on the goals and sources of human knowledge halbfass presents previously unknown materials concerning the history of sectarian movements including the notorious thags thaka and relations between indian and iranian thought the approach is partly philosophical and partly historical and philological to a certain extent it is also comparative the author explores indigenous indian reflections on the sources the structure and the meaning of the hindu tradition and traditional philosophical responses to social and historical realities he does not deal with social and historical realities per se rather basing his work on the premise that to understand these realities the reflections and constructions of traditional indian theorists are no less significant than the observations and paradigms of modern western historians and social scientists he explores the self understanding of such leading thinkers as sankara kumarila bhartrhari and udayana
