Li and his contributors explore how Taiwanese poets conceptualize their identities, employing multiple voices to challenge political hegemony and re-evaluate Taiwan's colonial legacy and nationalism. Poetry in Taiwan exists at the intersection of Taiwanese Mandarin and Japanese languages and traditions. The rise of China has contributed to the shrinking of Taiwan's international space, leading to Taiwanese cultures often being viewed as tributaries or by-products of China. On the global stage, they focus on Taiwanese poetry to highlight a history of local resistance in gender, identity, cultural and linguistic contexts. They deconstruct the hegemony and homogeneity of Chineseness, exploring multiple ways to reposition Taiwan on the map of world literature. Essential reading for scholars of Sinophone literature as well as those interested in the history and culture of Taiwan.

The Routledge Companion to Literature and Human Rights provides a comprehensive transnational and interdisciplinary map to this emerging field, offering a broad overview of human rights and literature while providing innovative readings on key topics. The first of its kind, this volume covers essential issues and themes necessarily crossing disciplines between the social sciences and humanities. Sections cover subjects with pieces on subjectivity, humanity, identity, gender, universality, the particular, the body, forms, visiting the different ways human rights stories are crafted and formed via the literary, the visual, the performative and the oral contexts, tracing the development of the literature over time and in relation to specific regions and historical events, impacts, considering the power and limits of human rights literature, rhetoric and visual culture drawn from many different global contexts. The essays offer an ideal introduction for those approaching the study of literature and human rights for the first time, looking for new insights and interdisciplinary perspectives or interested in new directions for future scholarship.
