kyle j dieleman focuses on the doctrinal and practical importance of sunday
observance in the early modern reformed communities in the low countries
my project investigates the theological import of the sabbath and its
practical applications the first step is to focus on how dutch reformed
theologians conceived of the sabbath the theology of the sabbath i argue
moves over time from an emphasis on spiritual rest to participating in the
ministries of the church to a strict rest from all work and recreation the next
step is to explore congregants actual sunday practices by attending to
church governance records at the national regional and local levels the
importance of proper sabbath observance quickly becomes clear the
provincial synod records classes records and consistory records indicate
that church authorities were adamant that church members faithfully attend
sermon and catechism services refrain from sinful practices and abstain
from recreational activities equally as telling as the observance demanded of
church members is how church authorities responded the church records
portray these authorities as fretting over the disordered and unregulated
nature of improper sabbath observance having established the importance
of the sabbath in dutch reformed theology and lived piety i argue the
emphasis on sunday observance is best understood as resulting from two
main factors first the emphasis on proper sunday observance is a result of
the reformed church authorities attempting to maintain the pious reputation
of the reformed faith and establish the identity of the reformed church amid
multiple other confessional identities second proper observance of the
sabbath was important because it ensured order within the church and
society more broadly
