challenges to internal security in europe including juvenile delinquency anti foreigner sentiments violence organised crime etc are increasingly affecting public perceptions of safety this book provides an overview of the challenges to internal security and argues in favour of a more comprehensive understanding of what internal security entails and what should be kept in mind when looking at crime statistics or when discussing offending behaviour by foreigners it concludes that public concerns about insecurity need to be taken more seriously and that to meet future security needs it is necessary to look beyond the traditional confines of police jurisdiction and national territory instead security efforts should address international as well as local challenges that influence subjective feelings of security and affect actual conditions of public safety in other words internal security is no longer an internal affair of individual countries it has become an international concern that requires both local as well as europe wide and global attention
