it is always confusing and perhaps inconvenient at times using generic terms that will mean something to everyone but different things to different people high performance is one of those terms high performance can be viewed as synonymous to high speed or low latency or a number of other characteristics the interesting thing is that such ambiguity can sometimes be useful in a world where focus shifts quite easily from one issue to another as times and needs evolve many things have changed since the first hpn conference held in aachen germany in 1987 the focus then was mainly on media access control mac protocols that allow users to share the high bandwidth of optical fiber fddi fiber distributed data interface was making its debut with its amazing 100 mbps speed atm asynchronous transfer mode and sonet the synchronous optical network were beginning to capture our imagination what could users possibly do with such high performance share it after realizing that the real problems had gradually

based on extensive original research this book explores how far the soviet pattern of industrial workplace organisation characterised by a high level of management discretion authoritarian control and the use of punitive methods on the shop floor has been replaced by internationally established practices with a greater emphasis on a lean organisation and employee involvement in quality improvement the book explores how the market reforms of the 1990s raised companies attention to product quality but did not lead to a change in the management methods which only began with the increased internationalisation of the russian economy in the 2000s the book includes a rich in depth study of multinational and domestic companies and argues that a move from the soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners who provide support for and audit the implementation and upholding of international management standards the research shows that local companies not exposed to such international collaboration continue with the old methods
