this paper surveys the recent literature on the theory of macroeconomic policy we study the effect of various incentive constraints on the policy making process such as lack of credibility political opportunism political ideology and divided government the survey is organized in three parts part i deals with monetary policy in a simply phillips curve model it covers credibility issues political business cycles and optimal design of monetary institutions part ii deals with fiscal policy in a dynamic general equilibrium set up the main topics here are credibility of tax policy and political determinants of budget deficits part iii studies economic growth in models with endogenous fiscal policy

the links between economic policy and economic growth are simultaneously obvious and obscure with many factors interacting to influence the overall process

the list of relevant parameters affecting economic growth of interest to scholars and policymakers is lengthy and expanding although the importance of government policy is widely recognized

the making of economic policy begins by observing that most countries trade policies are so blatantly contrary to all the prescriptions of the economist that there is no way to understand this discrepancy except by delving into the politics the same is true for many other dimensions of economic policy avinash dixit looks for an improved understanding of the politics of economic policy making from a transaction cost perspective such costs of planning implementing and monitoring an exchange have proved critical to explaining many phenomena in industrial organization dixit discusses the variety of similar transaction costs encountered in the political process of making economic policy and how these costs affect the operation of different institutions and policies dixit organizes a burgeoning body of research in political economy in this framework he uses u s fiscal policy and the general agreement on tariffs and trade gatt as two examples that illustrate the framework and show how policy often deviates from the economist s ideal of efficiency the approach reveals however that some seemingly inefficient practices are quite creditable attempts to cope with transaction costs such as opportunism and asymmetric information copublished with the center for economic studies and the ifo institute

moran examines three economic threats that could endanger america s national security america s fundamental and cumulative decline relative to the other major industrial states a loss of crucial economic and technological capabilities within our own country and the growing dependence on other countries for vital goods services and technologies

while economic research emphasizes the importance of governmental institutions for growth and progress conventional public policy textbooks tend to focus on macroeconomic policies and on tax and spend decisions markets state and people stresses the basics of welfare economics and the interplay between individual and collective choices it fills a gap by showing how economic theory relates to current policy questions with a look at incentives institutions and efficiency how should resources in society be allocated for the most economically efficient outcomes and how does this sit with society s sense of fairness diane coyle illustrates the ways economic ideas are the product of their historical context and how events in turn shape economic thought she includes many real world examples of policies both good and bad readers will learn that there are no panaceas for policy problems but there is a practical set of theories and empirical findings that

can help policymakers navigate dilemmas and trade offs the decisions faced by officials or politicians are never easy but economic insights can clarify the choices to be made and the evidence that informs those choices coyle covers issues such as digital markets and competition policy environmental policy regulatory assessments public private partnerships nudge policies universal basic income and much more

drawing on their experience as government insiders the authors of this book show how economic policy is shaped at the highest levels of government they reveal the interconnections between economic social and international policy covering such issues as the advocacy system

the relative effectiveness of various institutions such as the market or government is based on the ability for individuals to access and use dispersed knowledge in society and the incentives that steer their actions market process theory emphasizes the effectiveness of the price system to consolidate and transmit knowledge in the marketplace together this framework provides new insights on the capability of individuals to cooperate and improve society and the limits to government interventions in society the original research in each chapter uses this economic way of thinking to analyze a variety of public policy issues examining the incentives responsible for and the factors that contribute to the creation and effectiveness of the policies these chapters authored by public policy practitioners and researchers tackle such pressing issues as public education the process for approving medical devices tax policy and land use regulation

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead
