education is considered central to social mobility and following a drive to raise learners aspirations an aspiration industry has emerged however the desire to leave school early should not be regarded as evidence of students lacking ambition this book traces the emergence of the aspiration industry and argues that to have ambitions that do not require qualifications is different but not wrong reviewing the performance of six schools in england their ofsted reports and responses it evaluates underpinning assumptions of what makes an effective school this book critically examines neo liberal education policy developments including the 1988 education reform act and the political discourse around changing explanations of education failure with the rise in the marketisation of education

simon frith has been one of the most important figures in the emergence and subsequent development of popular music studies from his earliest academic publication the sociology of rock 1978 through to his recent work on the live music industry in the uk in his desire to take popular music seriously he has probably been cited more than any other author in the field uniquely he has combined this work with a lengthy career as a music critic for leading publications on both sides of the atlantic the contributions to this volume of essays and memoirs seek to honour frith s achievements but they are not merely about frith rather they are important interventions by leading scholars in the field including robert christgau antoine hennion peter j martin and philip tagg the focus on sociology and industry and aesthetics and values reflect major themes in frith s own work which can also be found within popular music studies more generally as such the volume will become an essential resource for those working in popular music studies as well as in musicology sociology and cultural and media studies

as much as dogs cats or any domestic animal horses exemplify the vast range of human animal interactions horses have long been deployed to help with a variety of human activities from racing

and riding to police work farming warfare and therapy and have figured heavily in the history of natural sciences social sciences and the humanities most accounts of the equine human relationship however fail to address the last few centuries of western history focusing instead on pre 1700 interactions equestrian cultures fills in the gap telling the story of how prominently horses continue to figure in our lives up to the present day kristen guest and monica mattfeld place the modern period front and center in this collection illuminating the largely untold story of how the horse has responded to the accelerated pace of modernity the book s contributors explore equine cultures across the globe drawing from numerous interdisciplinary sources to show how horses have unexpectedly influenced such distinctively modern fields as photography anthropology and feminist theory equestrian cultures boldly steps forward to redefine our view of the most recent developments in our long history of equine partnership and sets the course for future examinations of this still strong bond

for fans of sci fi irwin allen is one of the all time greats responsible for some of the genre s classic productions between 1964 and 1970 allen produced voyage to the bottom of the sea lost in space the time tunnel and land of the giants this is a guide to the series history personnel and all episodes provided by publisher
