up to date and case study laden analysis of how children and adolescents interact with the media

intended to be a resource for individuals who are working directly with children and adolescents in diverse applied and clinical settings the first section contains perspectives on the field the second section contains an overview of assessment issues in child and adolescent psychotherapy the third section offers a state of the art overview of major therapeutic approaches that represent current practice in child and adolescent psychotherapy the last section includes chapters that are related to major assessment and therapeutic practices a longwood professional book

bringing together intellectual and scientific experts from pediatrics adolescent medicine general medicine pathology biology nursing and psychology this book is the first of its kind to cover the topics of leukemias and lymphomas in young patients ranging from infants to young adults the content is organized and subdivided into four major sections under the main headings of general considerations pathobiology clinical manifestations and treatment and supportive care and complications for ease of reference to readers hematological malignancies in children adolescents and young adults presents a comprehensive multidisciplinary review of the field of hematological malignancies and brings forth illuminating perspectives from an internationally recognized group of leading authorities in the field

this text identifies factors that influence children and adolescents and indicates how professionals can help young people as clients in a variety of settings the strengths of the text include a pragmatic focus on both children and adolescents a broad conception of practice an emphasis on assessment the use of historical organizational and developmental perspectives and a major social problems focus the text is divided into three parts to identify the context of social work with children and adolescents examine the helping process and discuss applications of that process

rapidly changing demographics in the united states over the past few years have resulted in a majority of minority youth this has far reaching implications for mental health clinicians for whom knowledge of cultural context is critically important to understanding their patients and rendering effective compassionate treatment in addition to addressing cultural context the book addresses the emerging crisis of the covid 19 pandemic and the significance of the movement for social justice

the purpose of this book is to address the problem of children and adolescents who have mental disorders that are chronic while some emotional disorders in youngsters are reactive disorders which with professional help will be corrected by the

natural process of psychological growth there are youth who have illnesses that go on interminably for those children the existing mental health system has been ineffective in order to begin to address the needs of such youngsters the first step is to bring together people knowledgeable about the problem this volume integrates material presented at the national conference on chronic mental illness in children and adolescents as well as knowledge that has developed since the time of that conference this reference looks at many of the problems encountered in treating chronically mentally ill youngsters such as determining the population of this group improving the method and quality of care delivery and analysis of epidemiological data and public policy impediments the importance of skillful clinical work with families and methods of providing family assessment and care are discussed treatment evaluation to determine which modalities of care are most effective for which types of children is discussed as part of the treatment program much of this book focuses upon strategy policy and politics

this widely used practitioner resource and course text now significantly revised is considered the most comprehensive guide to working with children who have experienced major losses family upheavals violence in the school or community and other traumatic events leading experts present a range of play and creative arts therapy techniques in chapters organized around in depth case examples informed by the latest knowledge on crisis intervention and trauma the fourth edition encompasses work with adolescents as well as younger children each chapter concludes with instructive questions for study or reflection new to this edition expanded age range now includes expressive therapy approaches for adolescents more attention to traumatic stress reactions and posttraumatic stress disorder ptsd several chapters address complex trauma extensively revised with the latest theory practices and research many new authors additional topics parental substance abuse group work with adolescents chronic medical conditions animal assisted play therapy and courtroom testimony and more

contributed papers presented at a seminar with reference to india

a collection of forty chapters divided into three separate volumes dealing with the question how do we as educators clinicians other professionals and parents help children and adolescents deal with threat to their lives dying death and bereavement

in this book brandell examines the specific countertransference associated with child and adolescent disorders and shows how its recognition provides the therapist with essential clinical information and influences the course of treatment

death is not a mere possibility but a certainty for all of us yet today s society unrealistically portrays childhood as a time of unremittant joy and freedom unfortunately the reality of life may suddenly bring children face to face with tragic circumstances such as the death of their pet the terminal illness of their parent their own struggle with life threatening disease the accidental death of their sibling or the suicide of a friend the gravity of any of these situations takes children beyond the innocence of childhood and plunges them into a world that is frightening and full of uncertainty unfortunately our perceptions and attitudes toward death do not equip children with the tools to help them cope adequately with such overwhelming experiences beyond the innocence of childhood is a collection of forty chapters which are divided into three separate volumes the overall purpose of this series is to answer the question how do we as educators clinicians other professionals and parents help children and adolescents deal with threat to their lives dying death and bereavement in this three volume set the editors have brought together a number of well known educators researchers and practitioners who share their knowledge and expertise concerning the care and well being of children and adolescents

the roles that media play in the lives of children and adolescents as well as their potential implications for their cognitive emotional social and behavioral development have attracted growing research attention in a variety of disciplines the

routledge international handbook of children adolescents and media analyses a broad range of complementary areas of study including children as media consumers children as active participants in media making and representations of children in the media the handbook presents a collection that spans a variety of disciplines including developmental psychology media studies public health education feminist studies and the sociology of childhood essays provide a unique intellectual mapping of current knowledge exploring the relationship of children and media in local national and global contexts divided into five parts each with an introduction explaining the themes and topics covered the handbook features 57 new contributions from 71 leading academics from 38 countries chapters consider vital questions by analyzing texts audience and institutions including the role of policy and parenting in regulating media for children the relationships between children s on line and off line social networks children s strategies of resistance to persuasive messages in advertising media and the construction of gender and ethnic identities the handbook s interdisciplinary approach and comprehensive international scope make it an authoritative state of the art guide to the nascent field of children s media studies it will be indispensable for media scholars and professionals policy makers educators and parents

an invaluable guide for working with children and adolescents with behavioral disorders emotional disorders or both featuring contributions from renowned experts such as gerald fuller eugenio rothe john lockman charles casat freddy paniagua and nancy winters clinical assessment of child and adolescent behavior details how to use the behavioral assessment process to develop effective treatment and rehabilitation plans for various child and adolescent psychological and psychiatric disorders this comprehensive guide features step by step instruction for successful identification and diagnosis of various behavioral emotional disorders as well as suggestions for treatment on specialized topics such as asperger s syndrome eating disorders and disruptive behavior carefully edited by h booney vance and andres pumariega it offers the mental health practitioner a wealth of practical information not only on state of the art clinical assessment procedures and techniques but also on applied intervention strategies for each disorder along with instructive case studies

and vignettes the book also examines the use of medication as part of an integrated treatment approach to managing these challenging behaviors addressing the critical advances made in the field in recent years clinical assessment of child and adolescent behavior represents an important step in bridging the gap between various disciplines and improving clinical practice with infants children and youth topics covered include anxiety disorders attention deficit disorder bulimia and anorexia nervosa child abuse and psychic trauma communicative disorders disorders of infancy and early childhood learning disorders mood disorders pediatric brain injury pervasive developmental disorders posttraumatic stress disorder socially and emotionally maladjusted children and youth

a best selling chronologically organized child development text laura e berk s infants children and adolescents takes an integrated approach to presenting development in the physical cognitive emotional and social domains emphasizing the complex interchanges between heredity and environment providing exceptional multicultural and cross cultural focus and offering research based practical applications that students can relate to their personal and professional lives

this volume presents a unique research based approach to treating the prevalent distressing yet highly treatable problem of separation anxiety the authors provide step by step guidelines for planning and implementing the entire process of therapy with children adolescents and their families from intake and assessment through coping skills training cognitive behavioral interventions and relapse prevention comprehensive case examples illustrate the complexities of building strong relationships with families under stress and effectively intervening with 3 to 17 year olds across multiple situations day and night and setting home extracurricular school and camp the book is written for maximum accessibility for clinicians from any background even those with limited cognitive behavioral therapy experience

a practical text that focuses on the mental disorders most often encountered in children and adolescents experts in the field

discuss collaborative treatment and theoretical foundations for nursing care of this population current research and biological theories are integrated throughout the text a must have reference for the practitioner in psychiatric paediatric and family nursing this text provides clinical examples and covers problems in parenting and chemical dependencies a special unit is also included on groups that are particularly at risk for mental disorders including discussions about victimization chronic illness and disability children of mentally ill and homeless families

emanating from a strong scientific and empirical foundation this updated second edition focuses on commonly occurring psychiatric and psychological disorders in children and adolescents in this new edition leading experts share research findings and clinical experiences and present in depth discussions on how to address common impediments to successful intervention in the real world accordingly the authors talk not just about first line interventions but also about secondary and tertiary treatments should initial efforts be unsuccessful book jacket title summary field provided by blackwell north america inc all rights reserved
