techniques and principles in language teaching has influenced the way

thousands of teachers have taught english this classic guide to developing the way you teach has been an essential resource to new and experienced teachers worldwide and is now in its third edition each chapter focuses on a different teaching approach describing it being used in the classroom analyzing what happened and helping you think how you could apply it to your own teaching new features of the third edition include a new discussion on the political dimensions of language teaching a new digital technology chapter and extended coverage of content based and task based approaches on this site you will find additional resources including author videos in which diane larsen freeman and marti anderson talk about the background to the book and new innovations in language teaching which are discussed in the third edition

in addition to the approaches and methods covered in the first edition this edition includes new chapters such as whole language multiple intelligences neurolinguistic programming competency based language teaching co operative language learning content based instruction task based language teaching and the post methods era

this book provides a practical overview of the most important methods in the field readers are drawn into classrooms where various teaching methods and approaches are being used they are encouraged to reflect on their own beliefs and to develop their own approach to language teaching publisher

here is a clear discussion of the theory and application of structural linguistics for the teacher of foreign languages and of english as a foreign language this is the first book to incorporate a modern theory of second language learning a scientifically directed set of principles and techniques for the teaching of a foreign language and a description and a discussion of the use of such technological aids as the language laboratory visual aids teaching machines and programmed learning the author a linguistic authority and acknowledged specialist in classroom methods and procedures combines the three main streams of progress in language teaching the contribution of linguistics the advances in learning theory and the development of tape recorders and language laboratories the result is a major contribution to language teaching publisher

this comprehensive anthology gives an overview of current approaches issues and practices in the teaching of english to speakers of other languages at elementary secondary and tertiary levels

bringing together an international and interdisciplinary team of contributors this handbook is a wide ranging and invaluable reference guide to language teaching a comprehensive reference work on language teaching which combines the latest research findings coverage of core topics and examples of teaching experience from a variety of languages and settings provides a unique breadth of coverage including the psycholinguistic underpinnings of language learning social political and educational contexts program design materials writing and course design teaching and testing teacher education and assessment and evaluation offers a balanced evaluation of the major positions and approaches including examining the increasingly important social and political context of language teaching written by an international and interdisciplinary group of authors from a dozen different countries english is only one of the many languages used as examples throughout the volume

for use in courses on language teaching methodology and teacher preparation this book also serves as an invaluable source for courses in language curriculum development materials development and teaching practice the author views effective language teaching as a network of interactions involving the curriculum methodology the teacher the learner and instructional materials hence the metaphor of a matrix each chapter discusses and examines the theoretical and practical dimensions of a central issue in language teaching among the topics covered are curriculum development designing instructional materials teaching listening speaking reading and writing the nature of effective teaching self monitoring in teacher development and language and content richards presents key issues in an accessible and highly readable style and shows how teachers and teachers in training can be involved in the investigation of classroom teaching and learning the emphasis is not on prescriptions but rather on developing effective teaching through understanding the various factors that interact in second language learning and in the second language classroom

this volume critically reviews the most prominent issues in language teaching today and relates them to general perspectives on the nature of language and of language teaching and learning

designed for teachers of all levels and languages this book seeks to inform their practices with cutting edge language teaching research

the authors set out to define the aims principles and objectives of recent research into what exactly happens in the language classroom

to describe the findings of this work and to relate these to teaching practice

this book examines current research centered on the second language classroom and the implications of this research for both the teaching and learning of foreign languages it offers illuminating insights into the important relationship between research and teaching and the inherent complexities of the teaching and learning of foreign languages in classroom settings offers an accessible overview of a range of research on instruction and learning in the l2 classroom bridges the relationship between research teachers and learners helps evolve the practice of dedicated current language teachers with research findings that suggest best practices for language teaching

it involves theories from various fields and imbibes the findings in them as from the field of psychology philosophy of language technology sociology and so on with such an inter disciplinary orientation language teaching consists of first language learning theories second language learning theories language teaching methods a sub part of which is language planning and teaching tasks language testing and variables in language learning this entails looking up different books on the various subjects which is not an easy proposition this book presents the topic comprehensively in one place saving in terms of time and effort which can be put to more constructive use discuss the various aspects of language teaching and the theories examples and illustrations and how their applied form influences the theory the chapters are classified as language learning theories language teaching methods language planning and materials production language teaching tasks testing programmed instruction and ca ea and variables in language learning

in this book michael mccarthy and ronald carter describe the discoursal properties of language and demonstrate what insights this approach can offer to the student and teacher of language the authors examine the relationship between complete texts both spoken and written and the social and cultural contexts in which they function they argue that the functions of language are often best understood in a discoursal environment and that exploring language in context compels us to revise commonly held understandings about the forms and meanings of language in so doing the authors argue the need for language teachers syllabus planners and curriculum organisers to give greater attention to language as discourse

this second edition is an extensive revision of the first edition of

this successful text like the first edition the second edition surveys the major approaches and methods in language teaching such as grammar translation audiolingualism communicative language teaching and the natural approach the text examines each approach and method in terms of its theory of language and language learning goals syllabus teaching activities teacher and learner roles materials and classroom techniques in addition to the approaches and methods covered in the first edition this edition includes new chapters such as whole language multiple intelligences neurolinguistic programming competency based language teaching cooperative language learning content based instruction task based language teaching and the post methods era teachers and teachers in training will discover that this second edition is a comprehensive survey and analysis of the major and minor teaching methods used around the world the book seeks not only to clarify the assumptions behind these methods and their similarities and differences but also to help teachers explore their own beliefs and practices in language teaching

this is an important collection of papers by a distinguished personality in the field topics covered include second language acquisition syllabus design methodology and methods listening speaking vocabulary and grammar issues in applied linguistics are summarised and presented with clarity and their practical implications explored thus making the vital connection between theory and practice in language teaching language teachers and students of applied linguistics will find this collection contains a wide range of recent work in linguistics presented in a lucid and highly accessible form

this book engages with current issues in developing materials for language teaching

this book proposes a new paradigm for english language teaching based on concepts from english for specific purposes esp research and applications as well as from growing evidence relating pattern recognition to language learning ability the contributors to the volume argue that learners should not try to become proficient all around users of idealistic native like english but instead should be realistic about what they need to acquire and how to go about achieving their specific goals the book discusses the present situation by describing the status quo of english language education in japan taking into consideration recent trends of clil content and language integrated learning emi english medium instruction and tblt task based language teaching as well as the work done on the common

European framework of reference CEFR for languages it introduces new movements in ESP in Japan and in wider Asia covering topics ranging from genre analysis to corpus linguistics and presents application examples of ESP practice in a range of educational situations in Japan from the graduate school level to elementary and middle school contexts it also offers readers application examples of ESP practice in a range of business settings and expands the discussion to the global sphere where EAP and ESP are gaining importance as the number of ELF English as a lingua franca speakers continue to increase the book will be of great interest to academics researchers and post graduate students working in the fields of EFL and ESL

The Routledge Encyclopedia of Language Teaching and Learning is an authoritative reference dealing with all aspects of this increasingly important field of study offering a comprehensive range of articles on contemporary language teaching and its history it has been produced specifically for language teaching professionals and as a reference work for academic studies at postgraduate level in this new edition every single entry has been reviewed and updated with reference to new developments and publications coverage has been expanded to reflect new technological global and academic developments with particular attention to areas such as online and distance learning teacher and learner cognition testing assessment and evaluation global English and teacher education themes and disciplines covered include methods and materials including new technologies and materials development contexts and concepts such as mediation risk taking in language learning and intercomprehension influential figures from the early days of language teaching to the contemporary related disciplines such as psychology anthropology and corpus linguistics it covers the teaching of specific languages including Japanese Chinese Arabic and African languages as well as English French German and Spanish there are thirty five overview articles dealing with issues such as communicative language teaching early language learning teacher education and syllabus and curriculum design a further 160 entries focus on topics such as bilingualism language laboratories and study abroad numerous shorter items examine language and cultural institutions professional associations and acronyms multiple cross references enable the user to browse from one entry to another and there are suggestions for further reading written by an international team of specialists the Routledge Encyclopedia of Language Teaching and Learning is an invaluable resource and reference manual for anyone with a professional or academic interest in the subject

drawing upon convergences between translation studies and foreign and second language l2 didactics that have emerged as a result of recent research this volume continues the dialogue between the two disciplines by allowing for epistemological two way traffic marrying established yet so far unrelated or under researched conceptual approaches and disseminating innovative scientific evidence from different continents a unique feature of the volume is the sub section presenting the most recent empirical studies in the development of linguistic and other professional competences for translators with suggestions for re de fining translation curricula the contributors to this volume include representatives of various spheres including academics researchers and practitioners their underlying theoretical and empirical research is informed by multiple perspectives linguistics didactics and translation related this book shows how integrating insights from translation studies into language teaching and vice versa can effectively respond to the challenges of contemporary language and translator teaching and training

becoming a language teacher by respected author and experienced language teacher elaine k horwitz gives pre and in service teachers the skills they need to meet the needs of all language learners in today s diverse classrooms while encouraging them to develop a personal approach to language teaching using a warm supportive tone the author clearly explains the fundamental concepts of second language acquisition and language teaching a much needed resource at a time when it is critical for all mainstream teachers to focus on language this guide describes how to develop language for academic needs as well as for communication purpose and addresses the latest trends in language teaching
