through several unique perspectives and contexts this volume contributes to current understanding of agency in second language learning it includes chapters discussing theoretical analytical and pedagogical approaches and will serve as a key reference for researchers of language learning and teaching

if you have struggled to learn another language or you are looking for better ways to do it look no further than this book it looks into and explains why so many people have difficulties in learning foreign languages despite the fact that all of us learned our first with relative ease it tells us what we need to do if we are to improve our language learning it also provides a whole host of free downloadable resources to help learners implement some of the suggested practices it can be used by itself if you are an independent kind of learner or it can be used in conjunction with courses so you can gain maximum benefit out of them

this book follows four emergent bilingual students in an english medium pre kindergarten in the us as they navigate the social and linguistic demands of school it illustrates how students differing classroom social positions shaped their participation in interaction and in turn their english

language learning across a school year with a unique focus on both processes and outcomes the book highlights language strategies that are overlooked if the focus is solely on one language or on group participation and it emphasizes the importance of assessment choice in shaping which learners appear to be successful it is a powerful argument for recognising the translingual and multimodal abilities of learners even in education which is officially english medium and monolingual

the ability to effectively communicate with individuals from different linguistic and cultural backgrounds is an invaluable asset learning a second language proves useful as students navigate the culturally diverse world however studying a second language can be difficult for learners who are not immersed in the real and natural environment of the foreign language also changes in education and advancements in information and communication technologies pose a number of challenges for implementing and maintaining sound practices within technology enhanced language learning tell cross cultural perspectives on technology enhanced language learning provides information on educational technologies that enable language learners to have access to authentic and useful language resources readers will explore themes such as language pedagogy how specific and universal cultural contexts influence audio visual media used in technology enhanced language learning tell and the use of english video games to promote foreign language learning this book is a valuable resource for academicians education practitioners advanced level students and school administrators seeking to improve language learning through technology based resources

in a diverse society the ability to cross communication barriers is critical to the success of any individual personally professionally and academically with the constant acceleration of course programs and technology educators are continually being challenged to develop and implement creative methods for engaging english speaking and non english speaking learners computer assisted language learning concepts methodologies tools and applications is a vital reference

source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies flipped instruction and language learning software this multi volume book is geared toward educators researchers academics linguists and upper level students seeking relevant research on the improvement of language education through the use of technology

benny lewis rocks tim ferriss author the four hour working week benny was enormously helpful in planning my year without english scott young rapid learner benny s destiny was to never speak spanish or any other language at school he spent years studying irish and german even after all this study he still couldn t speak them by the time he reached his 20 s he could only speak english yet he ignored the call of destiny and decided to learn spanish anyway these days benny speaks over 10 languages all self taught and runs the world s most popular language learning blog fluent in 3 months how has he achieved this he s devoted his adult life to discovering language hacks faster and smarter ways to learn a new language inside the no nonsense guide to language learning you ll discover why benny s destiny was to never speak spanish and how he did it anyway the smartest decision you can ever make for your language learning how to learn a new language fluently how beginners can outsmart expert language learners why the cia wrong and it doesn t take 1 000 hours to learn a language the 7 most common mistakes language learners make and how to fix them how to practise speaking a foreign language without travelling overseas if you want to learn how to speak a new language pick up your copy of the no nonsense guide to language learning today

spolsky here examines the conditions under which languages are learned and how learning related to teaching his theory set out in the form of a preference model emphasizes the need to be precise and clear on the nature of the goals and outcomes of learning and to recognize the complexity of the concept of knowing a second language

at the heart of this volume lies an exploration of what actually happens to languages and their users when cultures come into contact what actions do supra national institutions nation states communities and individuals take in response to questions raised by the increasingly diverse forms of migration experienced in a globalized world the volume reveals the profound impact that decisions made at national and international level can have on the lives of the individual migrant language student or speech community equally it evaluates the broader ramifications of actions taken by migrant communities and individual language learners around issues of language learning language maintenance and intercultural contact reflecting jan blommaert s assertion that in a world shaped by globalization what is needed is a theory of language in society of changing language in a changing society this volume argues that researchers must increasingly seek diverse methodological approaches if they are to do justice to the diversity of experience and response they encounter

second language learning theories is an introduction to the field of second language learning for students without a substantial background in linguistics drawing on the expertise of both a specialist in the teaching of second languages and a linguist specializing in second language acquisition this textbook provides an up to date introductory survey of the most active and significant perspectives on the subject in this new edition the authors have revised and updated the text throughout to reflect the substantial developments that have taken place in the field in recent years new studies have been incorporated as examples and there is more material on work in l2 phonology and lexis as well as syntax the evaluation sections in each chapter have been expanded and generally the book is rebalanced in favour of newer material the first edition quickly established itself as the textbook of choice for students new to second language learning the updates and revisions in this new edition ensure that the book remains as fresh engaging and useful as the day it was first published

the routledge handbook of language learning and technology brings together leading international

authorities in a number of key areas of development and change and opens up the field of language learning by exploring the pedagogical importance of technological innovation led by fundamental concepts theories and frameworks from language learning and teaching research rather than by specific technologies this handbook is the essential reference for all students teachers and researchers of language learning within applied linguistics tesol elt and modern languages

have you ever wanted to learn a foreign language but felt you hadn t the time to fit it in many people have been in this position where they would love to take up a new hobby such as learn to play an instrument or speak a foreign language but they feel that after work and home life there isn t much time left in the week to dedicate to learning sometimes we do start learning something new but as the weeks pass it gets harder and harder to find the same time and discipline to keep at it language learning for busy bees is all about finding the time in your week to set aside for language learning the author will accompany you from the start of your language learning journey from the benefits of learning a language which language to choose all the way up to helping you manage your time and to stay motivated lindsay shorten has been learning over 20 languages in almost 15 years and this is her proven method to reaching fluency in a target language as well as giving guidance on time resource management she includes experiences from her own travels and language learning this step by step guide is a great asset for anyone looking to finally take that leap of faith with their language learning

roadmap to fluency a comprehensive guide to language learning your no nonsense evidence driven approach to language learning brief summary individual success stories are great to hear about but purely anecdotal this book is not only about what worked best for me or people that i know it is an easy to follow compilation of scientifically proven methods fitted into a framework that reads like a roadmap the journey begins on the day you decide to learn a new language and before you even know which one it then progresses to learning the alphabet if there is one understanding

grammar practicing speech learning vocabulary and more this book will tell you not only how to go about all these essential building blocks but also when and for how long it entails a compilation of scientific studies and references to each of them to build the basis of this book s content there are many good ways to learn languages but a few methods particularly stand out i want to make sure that my readers know about them everything in this book is easy to implement and will make your learning experience as smooth and efficient as possible what you will find is evidence driven methods and how to make them work for you advice on where to start and why a unique framework to understand and define the entire language learning journey level appropriate guidelines different tools for different stages of the journey the complete roadmap from zero to fluency roadmap to fluency is the right book for anyone who wants fresh perspectives on language learning

this volume centres on the domain in materials research that is the least investigated how language teachers and learners use materials issues such as how the use of materials by teachers and learners inform materials writers whether and how teachers perspectives influence how they perceive and enact materials and what are the factors that contribute to teachers use of both traditional and innovative textbooks are discussed here the volume also addresses some of the theoretical frameworks that inform materials use and will advance the readers understanding of this promising area of materials research it will appeal to postgraduate students teachers materials developers and researchers

how to learn a new language in as little as a few months and have a boatload of fun doing it let me make a prediction i predict that many many hundreds of people who will read this description will close this page in a few seconds learn a new language in a few months are you out of your mind they ll say it s just too good to be true and they will go back to their old language learning methods you know which methods toiling away at mind numbing grammar exercises learning words nobody uses and most importantly never actually using your skills to communicate with

another person if you re still with me i expect you to be different you think there must be something better after all how could people master more than one foreign language in their lives if it usually takes a regular person several years just to learn the basics the answer is simple in one way or another they follow the methods i share in how to learn any language in a few months while enjoying yourself they not only learn up to ten times faster than other people they also have a lot of fun while doing it how to learn any language in a few months while enjoying yourself is for you if you want to learn without this one thing you ll never learn a new language in just a few months learn what it is and how to apply it to your everyday life to practice your skills while doing your daily activities a completely free way to get native speakers to proofread your writings and even explain to you all of your mistakes this one site alone can dramatically improve your writing skills an extremely easy way to find a native speaker willing to help you learn her mother language it s almost like having a private tutor the proper way to improve your listening skills while watching movies most people learning a foreign language do it the wrong way and it does nothing to improve their abilities how to achieve more with less when learning languages you don t have to spend hours and hours cramming every single word and grammar rule in fact it works to your detriment learn what to do instead 9 common mistakes to avoid when learning languages reading this chapter alone can save you years of ineffective studies especially mistake 3 so common among language learners a 5 step process to improve your reading skills you can make your learning process much more enjoyable and effective by choosing the right things to read learn what these things are a fun idea to learn how to write the way native speakers do you too can learn the slang and phrases only native speakers use and know the language better than many academic professors how to dramatically improve your language skills when traveling while it isn t necessary to go abroad to learn a language it s a powerful way to cram a lot of learning into just a few days 5 common challenges of language learners and how to deal with them learn how to get over the fear of communicating with native speakers discover how to find more time to learn and practice your skills it s easier than you think read three tips on how to deal with discouragement if

you re ready to supercharge your progress and become fluent in a foreign language in as little as a few months scroll up and click the buy button why kill yourself doing things the old non effective way if you could make the process much easier and enjoy it more too p s as a thank you gift for buying my book you ll get access to a resource list with my favorite language learning sites

a data driven exploration of how children s language learning varies across different languages providing both a theoretical framework and reference the wordbank project examines variability and consistency in children s language learning across different languages and cultures drawing on wordbank an open database with data from more than 75 000 children and twenty nine languages or dialects this big data approach makes the book the most comprehensive cross linguistic analysis to date of early language learning moreover its data driven picture of which aspects of language learning are consistent across languages suggests constraints on the nature of children s language learning mechanisms the book provides both a theoretical framework for scholars of language learning language and human cognition and a resource for future research

the scope of individual learner differences is broad yet there is no current comprehensive and unified volume that provides an overview of the considerable amount of research conducted on various language learner differences until now

this volume analyses the policymaking expectations implementation progress and outcomes of early language learning in various education policy contexts worldwide the contributors to the volume are international researchers specialising in language policy and early language learning and their contributions aim to advance scholarship on early language learning policies and inform policymaking at the global level the languages considered include learning english as a second language in primary schools in japan mexico serbia argentina and tanzania spanish language education in the us and australia arabic as a second language in israel and bangladesh chinese in south america and oceania and finally early german teaching and learning in france and the uk
