a revisionist account of the tejano experience in south texas from its spanish colonial roots to 1900

this edition is abridged and annotated with updated information a judge from prussia a french texas ranger emigrants from all over the u s their names and stories are mostly now forgotten but were recorded in this 1900 volume by andrew jackson sowell they were mostly young hardy and looking for new opportunities in land they felt was wide open but in fact was inhabited by native americans the lives of these early pioneers is part of the history of the american west the original bound edition of this book ran over 1100 pages and most of that content is here it's the story of an incredibly violent and

adventurous time that was lived by the people whose stories you find here so well talked to them all and created one of the most interesting collections of personal histories of the wild west

now in its fourth edition rediscovering the golden state california geography examines this unique state's incredibly diverse landscapes and how geography and geographic change influences everything from the state's natural systems and cycles to its agriculture and more advanced industries to human migration cultures and urban planning exploring california through a geographic lens reveals how the field has evolved to cross traditional boundaries connect local and global issues and provide the insights that lead to practical solutions to problems new and old challenging the reader to look beyond stereotypes and assumptions this book encourages active participation in planning the state's dynamic future and this project makes teaching and learning about the geography of california more convenient exciting and rewarding for instructors and students going beyond a scientific analysis of natural features and environmental processes this book illustrates how social political and economic divides can be bridged through the study of geography and the connections it brings to light from geology weather and climate biogeography and hydrology we cover the state's physical geography and from demography and migration to cultures and economies to rural and urban geography we monitor the state's human geography pulse and then make the vital connections california continues to lead the nation in population economics 5th largest in the world agriculture natural and cultural diversity and a host of other categories this powerful state has earned this powerful publication this timely and versatile book will prove useful to californians in business education government and to concerned citizens and curious readers seeking to learn more about the golden state

new york times book review editors choice an unsettling journey into the disaster bound american food system and an exploration of possible solutions from leading food politics commentator and former farmer tom philpott more than a decade after michael pollan's game changing the omnivore's dilemma transformed the conversation about what we eat a combination of global diet trends and corporate interests have put american agriculture into a state of quiet emergency from dangerous drought in california which grows more than 50 percent of the fruits and vegetables we eat to catastrophic topsoil loss in the breadbasket heartland of the united states whether or not we take heed these urgent crises of industrial agriculture will define our future in perilous bounty veteran journalist and former farmer tom philpott explores and exposes the small handful of seed and pesticide corporations investment funds and magnates who benefit from the trends that imperil us with on the ground dispatches featuring the scientists documenting the damage and the farmers and activists who are valiantly and inventively pushing back resource scarcity looms on the horizon but rather than pointing us toward an inevitable doomsday philpott shows how the entire wayward ship of american agriculture could be

routed away from its path to disaster he profiles the farmers and communities in the nation's two key growing regions developing resilient soil building water smart farming practices and readying for the climate shocks that are already upon us and he explains how we can help move these methods from the margins to the mainstream

the untold history of slavery and resistance in California from the Spanish missions indentured Native American ranch hands Indian boarding schools Black miners kidnapped Chinese prostitutes and convict laborers to victims of modern trafficking a searing survey of 250 years of human bondage in what is now the state of California readers will be outraged publishers weekly California owes its origins and sunny prosperity to slavery Spanish invaders captured Indigenous people to build the chain of Catholic missions Russian otter hunters shipped Alaska natives the first slaves transported into California and launched a Pacific slave triangle to China plantation slaves were marched across the plains for the gold rush San Quentin prison incubated California's carceral state kidnapped Chinese girls were sold in caged brothels in early San Francisco Indian boarding schools supplied new farms and hotels with unfree child workers by looking west to California Jean Pfaelzer upends our understanding of slavery as a North South struggle and reveals how the enslaved in California fought fled and resisted human bondage in unyielding research and vivid interviews Pfaelzer exposes how California gorged on slavery an appetite that persists today in a global trade in human beings lured by promises of jobs but who instead are imprisoned in sweatshops and remote marijuana grows or sold as nannies and sex workers slavery shreds California's utopian brand rewrites our understanding of the West and redefines America's uneasy paths to freedom

for the first time Anton Wagner's groundbreaking 1935 book that launched the study of Los Angeles as an urban metropolis is available in English no book on the emergence of Los Angeles today a metropolis of more than four million people has been more influential or elusive than this volume by Anton Wagner originally published in German in 1935 as *Los Angeles werden leben und gestalt der zweimillionenstadt in Südkalifornien* it is one of the earliest geographical investigations of a city understood as a series of layered landscapes Wagner demonstrated that despite its geographical disadvantages Los Angeles grew rapidly into a dominant urban region bolstered by agriculture real estate development transportation infrastructure tourism the oil and automobile industries and the film business although widely reviewed upon its initial publication his book was largely forgotten until reintroduced by architectural historian Reyner Banham in his 1971 classic *Los Angeles the architecture of four ecologies* this definitive translation is annotated by Edward Dimendberg and preceded by his substantial introduction which traces Wagner's biography and intellectual formation in 1930s Germany and contextualizes his work among that of other geographers it is an essential work for students scholars and curious readers interested in urban geography and the rise of Los Angeles as a global metropolis this fine new translation by Timothy Grundy of Anton

wagner's los angeles with edward dimendberg's lucidly probing introduction constitutes a major contribution to urban history and our understanding of one of the world's most enigmatic and significant cities. thomas s. hines, research professor of history and architecture and urban design, ucla. edward dimendberg has done a remarkable job bringing anton wagner's classic study of los angeles to a wider readership. this landmark publication will enable many strands of urban scholarship to enter into dialogue for the first time. matthew gandy, professor of geography, university of cambridge, and author of *natura urbana: ecological constellations in urban space* (2022). anton wagner was a prescient and troubling historical figure nearly a century ago. with his camera in hand, he walked los angeles in fervent exploration of metropolitan growth. this beautiful and expert book takes wagner every bit as seriously as he took los angeles. william deverell, director, huntington usc institute on california and the west. anton wagner's geographic and ethnographic history of the urbanization of los angeles has long been unavailable to english speaking readers. this early study, accompanied by edward dimendberg's comprehensive introduction, will be of interest to all who like reyner banham admire its impressive scholarship and firsthand account of a city and ecology already in the throes of dynamic transformation. joan ockman, vincent scully, visiting professor of architectural history, yale school of architecture. encompassing copious photographs, insightful commentary, and thorough reconstruction of wagner's life and times, this new translation of anton wagner's *los angeles* provides the missing link in scholarship about the metropolis during the early twentieth century. its continuing relevance and controversial edge will appeal to urban researchers and college students beyond southern california. michael dear, professor emeritus of city regional planning, university of california berkeley. scholars of los angeles or any city must rejoice at this first proper english language publication of wagner's brilliant if problematic urban studies masterpiece. the edition is made accessible and relevant by edward dimendberg's indispensable prefatory material and contextualization. roger keil, professor of environmental and urban change, york university. finally translating this fascinating book into english fills an important gap in our historical knowledge of los angeles and its interpretation. edward dimendberg's invaluable introduction situates anton wagner in a comprehensive intellectual context of more than merely historical interest. this in depth picture of los angeles in 1933 is essential reading for anyone interested in cities. margaret crawford, professor of architecture, university of california berkeley. this key text from 1935 for understanding los angeles urbanism is finally available in an excellent english translation by timothy grundy. revelatory introductory essays by anthony vidler and edward dimendberg explain how german geographer and later nazi party member anton wagner was able to map and conceptualize the radical originality of this archetypal american metropolis in ways that deeply influenced reyner banham and so many subsequent writers on the city. robert fishman, taubman college of architecture and planning, university of michigan. expertly annotated by edward dimendberg, anton wagner's book on the growth of los angeles, which first appeared in german in 1935, is a landmark study in the history of urbanization.

at the same time it can be read as an example of transnational and comparative history in which an observer from one country commented on developments in another this volume will interest historians of the modern city both in america and in germany andrew lees distinguished professor of history emeritus rutgers university blending his wide knowledge and his acute wit edward dimendberg has meticulously reconstructed the genesis of a forgotten doctoral thesis which had remained unread for more than eighty years despite its acknowledgement by reyner banham this pioneering scholarly study of the southern californian metropolis is now available for the first time in english inscribed with subtlety in both its german and its american contexts on the basis of thorough investigations jean louis cohen sheldon h solow professor in the history of architecture institute of fine arts new york university this is the odyssey of a book written and published in 1930s nazi germany forgotten after the war and rediscovered by reyner banham in the 70s los angeles is a seminal text of modern architectural history and confronts readers in the present with the paradox of an unknown classic wolfgang schivelbusch author of the railway journey finally a translation of anton wagner s los angeles with extensive notes and a superb and deeply researched introduction by edward dimendberg has arrived it turns out that it was worth the wait this volume is not only an important historic document but a still unrivaled portrait of a great city robert bruegmann distinguished professor emeritus of art history architecture and urban planning at the university of illinois at chicago and author of sprawl a compact history scholars of los angeles can rejoice that anton wagner s legendary study of early 1930s los angeles is at last available in a masterful translation with a luminous introduction by edward dimendberg that captures wagner s analytical brilliance as well as his troubling politics and racial views an essential addition to any library of southern california louis s warren w turrentine jackson professor of western u s history university of california davis anton wagner s study provides an invaluable and frequently perceptive window into the evolution of los angeles during the early twentieth century showing how human agency transformed regional resources into a booming major city the translation is immensely enhanced by edward dimendberg s skillful provision of context including fascinating intellectual history stephen bell professor of geography and history ucla los angeles the development life and structure of the city of two million in southern california has always had an elusive presence in the conversation about the explosive growth of the southern california metropolis at the beginning of the twentieth century an arcane text known to exist but only accessible to very few this expert first translation in english almost ninety years after it originally appeared in german is prefaced by a complex and engaging introduction by edward dimendberg that situates the original study in a multidisciplinary conversation it elucidates the many ways this landmark essay on los angeles s urban geography was not only filtered into subsequent scholarship on the city reyner banham s iconic los angeles the architecture of four ecologies in particular but also how it resonates with contemporary debates about cities as complex social organisms this book will be essential reading not only for historians of los angeles but for those interested in

the theorization of the modern metropolis more broadly that the volume editor addresses wagner s problematic views on race and territorial conquest front and center within their historic context only adds to the significance of this undertaking martino stierli the philip johnson chief curator of architecture and design the museum of modern art new york

since the mexican revolution of 1910 1920 mexico s rebellious peasant has become a subject not only of history but of literature film and paintings with his sombrero his machete and his rifle he marches or rides through countless hollywood or mexican films killing brutal overseers hacienda owners corrupt officials and federal soldiers some of mexico s greatest painters such as diego rivera have portrayed him as one of the motive forces of mexican history was this in fact the case or are we dealing with a legend forged in the aftermath of the revolution and applied to the revolution itself and to earlier periods of mexican history this is one of the main questions discussed by the international group of scholars whose work is gathered in this volume they address the subject of agrarian revolts in mexico from the pre columbian period through the twentieth century the volume offers a unique perspective not only on mexican riots rebellions and revolutions through time but also on mexican social movements in contrast to those in the rest of latin america the contributors to the volume are ulises beltran raymond buve john coatsworth romana falcon john m hart evelyn hu dehart friedrich katz william k meyers enrique montalvo ortega herbert j nickel leticia reina william taylor hans werner tobler john tutino arturo warman and eric van young originally published in 1988 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

updated and revised for a popular audience a fascinating new edition of the classic the american west a new interpretation examines the diverse peoples and cultures of the american west and the impact of their intermingling and clash the influence of the frontier and topics ranging from early exploration of the region to modern day environmentalism

this anthology about women and minorities in texas collects eighteen essays by highly respected scholars examining the latest multicultural interpretations of the lone star state and placing them in a historical perspective the distinctive and diverse nature of texas history comes alive through the book s focus on topics that have been under represented in texas history literature
