useful for ug and pg students

a sequel to the author's advanced accounting volume i this comprehensive and student friendly book covers the multifarious aspects of accounting ranging from partnership accounts company accounts to bonus issue rights issue underwriting and preference share redemption the text focuses in particular on the accounts of banking and insurance companies it also covers accounts with reference to incorporation and internal reconstruction of companies as well as amalgamation absorption and external reconstruction of companies a large number of illustrations and worked out examples are provided to make the students understand the concepts better

for the students of b com m com bba ca icwa caiib cs and various diploma and certificate examinations

the most reader friendly text on the market advanced accounting 8e brings real world accounting topics to the student s level presenting advanced concepts and issues in a flexible step by step approach this is the only advanced book that completely separates the following three major concepts dealt with in the consolidations area 1 the general concept of consolidating 2 the concept of a non controlling interest and 3 the change or no change in basis of accounting concepts for business combinations separating these concepts makes it much easier for students than having to simultaneously learn multiple concepts

any book on solved problems would be welcome by the students as they dread the unsolved problems the most problems and solutions in advanced accountancy vol i and ii is the result of realization of the same fact however this book will serve its purpose the best if before referring to it the students have attempted to solve the questions on their own

the emphasis of this text is on financial accounting concepts and their application both in business and non business organizations it provides coverage of partnerships affiliated companies and topics such as international accounting standards and business segments
