children and their families the continuum of care provides a unique interdisciplinary

perspective that underscores the nurse's role in planning, coordinating, and working with all members of a pediatric health care team. It shows students how to make critical judgments and assessments to manage the care of children in a variety of community settings, including homes, schools, and medical centers, from infancy through adolescence. This text thoroughly covers the health promotion, surveillance, and maintenance needs of children. In this edition, threaded case studies follow a community of pediatric clients and continue throughout the chapter to show the interrelated dynamics of pediatric nursing care. A companion website includes journal articles, NCLEX-style chapter review questions, a Spanish-English audio glossary, watch and learn videos, a fluids and electrolytes tutorial, and much more.

American Journal of Nursing (AJN) Book of the Year Awards 1st place in Child Health. Provide quality nursing care through each stage of child development. Wong's Nursing Care of Infants and Children, 12th edition, uses an easy-to-follow, family-centered approach to describe the care of children at each age and stage of development. The book begins with a discussion of the influences on and assessment of child health, then provides chapters on child health promotion and health problems, all organized by age groups and body systems. Up-to-date, evidence-based information helps you develop critical thinking skills along with the sensitivity needed to become a compassionate, caring pediatric nurse. Written by a team of experts led by Marilyn J. Hockenberry Wong, it continues to be the leading text in pediatric nursing. Focus on family-centered care emphasizes the role and influence of the family in child health and illness with a separate chapter and family-centered care boxes. Full-color drawings and photographs reflect the latest in nursing care. Nursing care guidelines boxes offer clear, step-by-step instructions for interventions in a variety of situations and conditions. Nursing care plan boxes include expected patient outcomes and rationales for nursing interventions. Nursing tips include helpful hints and practical clinical information. Translating evidence into practice and applying evidence to practice boxes help you apply research to improve the outcomes of nursing care. Atraumatic care boxes contain techniques for care that manage pain, discomfort, or stress along with approaches to promote self-esteem and prevent embarrassment. Emergency treatment boxes serve as a quick reference for interventions in critical situations. Cultural considerations and cultural competence content provides tips from clinical experts. Community and home health considerations boxes address issues such as increasing immunization rates, decreasing smoking among teens, and preventing lead poisoning. Drug alerts highlight important drug-related information for safe, appropriate care. Nursing alerts call out critical considerations such as key assessment data, risk factors, and danger signs that must be considered in providing care. Research focus boxes emphasize research with concise reviews of important evidence.

Children and young people suffering from long-term conditions require continuing support and nursing care throughout their lives. *Nursing Care of Children and Young People with Chronic Illness* explores chronic disease management in the context of recent developments, including the National Service Framework for Children. It addresses the aetiology of chronic illness and the impact on the child's family. It also explores holistic approaches to caring for their social, physical, and psychological needs and highlights the importance of the nurse's role in promoting children and their parents as expert patients. *Nursing Care of Children and Young People with Chronic Illness* is a comprehensive, up-to-date resource for nursing students and practitioners on the context, theory, and practice of assessing health needs and the delivery of holistic care and services within a variety of care settings to enable them to meet the changing needs of children and young people with chronic illnesses and diseases and their families. The first nursing-specific text related to the care of children, young people with chronic illness incorporates case studies/scenarios throughout to enable readers to gain an understanding of the application of concepts.
