this is the first book to cover the global marine distress and safety system gdmss in a comprehensive and readable way gdmss is now being developed to provide a new global communications and locating network to alert search and rescue services and all students of navigation or maritime technology and practising navigation officers

will need to be trained in its use this accessible reference textbook provides students and new radio operators with all the knowledge necessary for a complete understanding of gmdss and its related systems

the interdisciplinary collection of essays investigates whether unced and its output were appropriate for averting global environmental and developmental catastrophe the intellectual debate inside and outside unced has been dominated by powerful entrenched interests which marginalise rival interpretations of the crisis and block possible alternative ways forward the crisis is therefore being tackled by a continuation of the very policies that largely caused it in the first place

it is becoming common in many states the opportunity to reclaim government from politicians by simply signing a petition to put an initiative on the ballot and then voting for it isn t this what america ought to be about proposition 13 in california s 1978 election paved the way the past decade saw more than 450 such actions now in many states direct legislation dominates the political agenda and defines political and public opinion while this may appear to be democracy in action richard ellis warns us that the initiative process may be putting democracy at risk in democratic delusions he offers a critical analysis of the statewide initiative process in the united states challenging readers to look beyond populist rhetoric and face political reality through engaging prose and illuminating and often amusing anecdotes ellis shows readers the dark side of direct democracy specifically the undemocratic consequences that result from relying too heavily on the initiative process he provides historic context to the development of initiatives from their populist and progress roots to their accelerated use in recent decades and shows the differences between initiative processes in the states that use them most important while acknowledging the positive contribution of initiatives ellis shows that there are reasons to use them carefully and sparingly ill considered initiatives can subvert normal legislative checks and balances undermine the deliberative process and even threaten the rights of minority groups through state sanctioned measures today s initiative process ellis warns is dominated not by ordinary citizens but by politicians perennial activists wealthy interests and well oiled machines deliberately misleading language on the ballot confuses voters and influences election results and because many initiatives are challenged in the courts these ostensibly democratic procedures have now put legislation in the hands of the judiciary throughout his book he cites examples drawn

from states in which initiatives are used intensively oregon california colorado washington and arizona as well as others in which their use has increased in recent years undoing mistakes enacted by initiative can be more difficult than correcting errors of legislatures as voters prepare to consider the host of initiatives that will be offered in the 2002 elections this book can help put those efforts in a clearer light democratic delusions urges moderation attempting to teach citizens to be at least as skeptical of the initiative process as they are of the legislative process and to appreciate the enduring value of the representative institutions they seek to circumvent
