first published in 1985 kohlberg and his colleagues claimed that all one need do in moral education is change the stage or structure of an individual s moral reasoning and changes in moral behavior ego and personality style would occur as moral education entered the 1980s many important problems remained the question of the legitimacy of the highest stage is still being considered the problem of the relationship between judgment and action is receiving much attention and reformulation as well the role of affect in moral functioning has been sorely overlooked until very recently a further issue is the implication of the particular realm of one s life family school peer group workplace church for the form and effectiveness of moral education finally how can self acknowledged moral transgressions in typical individuals be incorporated into the theory this volume reflects these problems

critical discursive psychology addresses issues in critical discursive research in psychology and outlines the historical context in the discipline for the emergence of qualitative debates key critical theoretical resources are described and assessed and a series of polemics is staged that brings together writers who have helped shape critical work in psychology it also sets out methodological steps for critical readings of texts and arguments for the role of psychoanalytic theory in qualitative research

in this age of collections that is ours many volumes of collections are published they contain contributions of several well known authors and their aim is to present a selective overview of a relevant field of study this book has the same purpose its aim is to introduce students scholars and all those interested in current problems of legal theory and legal philosophy to the work of the leading scholars in this field the large number of publications both books and articles that have been produced over recent decades makes it quite difficult however for those who are making their first steps in this domain to find firm guidelines the book is new in its genre because of its method the choice was made not to

reprint an example of contributors earlier basic articles or a part of one of their books this would only give a partial view of the rich texture of their work rather the authors were asked to make an original synthesis of their own contributions to the field of legal theory and legal philosophy brought together in this volume they constitute a truly author ised view of their work this book is also new in that each essay is complemented with bibliographical information in order to encourage further research on the author s self selected work this will help the reader rapidly to become familiar with the whole of the published work of the contributors

includes titles on all subjects some in foreign languages later incorporated into memorial library
