ÿ in a religious pluralistic society the other cannot be ignored even less so when there is a familial relationship between religions the way in which judaism and christianity relate can be conceptualised in many different forms depending on the theory one subscribes to did judaism and christianity derive from a common ancestor did christianity spring from judaism and if so when why did the final cut between the two take place did christianity replace judaism if so how can the relationship between them now be described before interaction between the two religions is possible an honest and unbiased attempt to understand each other must be mutual this is a painful and difficult exercise as christians and jews seem to have been at odds since forever this publication is not the final word on the relationship but perhaps it serves as an invitation to jews and christians for peaceful engagement

justification as ignorance offers an original account of epistemic justification as both non factive and luminous vindicating core internalist intuitions without construing justification as an internal condition knowable by reflection alone sven rosenkranz conceives of justification in its doxastic and propositional varieties as a kind of epistemic possibility of knowing and of being in a position to know his account contrasts with recent alternative views that characterize justification in terms of the metaphysical possibility of knowing instead he develops a suitable non normal multi modal epistemic logic for knowledge and being in a position to know that respects the finding that these notions create hyperintensional contexts he also defends his conception of justification against well known anti luminosity arguments shows that the account allows for fruitful applications and principled solutions to the lottery and preface paradoxes and provides

a metaphysics of justification and its varying degrees of strength that is compatible with core assumptions of the knowledge first approach and disjunctivist conceptions of mental states
