this important book will do much to reestablish the significance of thomas reid for philosophy today nicholas wolterstorff has produced the first systematic account of reid s epistemology relating reid s philosophy to present day epistemological discussions the author demonstrates how they are at once remarkably timely relevant and provocative

there is no competing book that both uncovers the deep pattern of reid s thought and relates it to contemporary philosophical debate it must be read by historians of philosophy as well as all philosophers concerned with epistemology and the philosophy of mind

neil gross shows that the u s academy s liberal reputation has exerted a self selecting influence on young liberals while deterring promising conservatives his study sheds new light on both academic life and american politics where the conservative movement was built in part around opposition to the liberal elite in higher education

something is subject to luck if it is beyond our control in luck s mischief haji argues that owing frequently to precluding our being able to otherwise luck limits both the range of what is morally obligatory for us and things for which we are morally responsible

in the tradition of the affluent society and bowling alone a book that will redefine the way americans think about themselves for decades to come america may be more diverse than ever coast to coast but the places where we live are becoming increasingly crowded with people who live think and vote as we do we ve built a country where we can all choose the neighborhood and church and news show most compatible with our lifestyle and beliefs and we are living with the consequences of this way of life segregation our country has become so polarized so ideologically inbred that people don t know and can t understand those who live just a few miles away the reason for this situation and the dire implications for our country is the subject of this groundbreaking work in 2004 journalist bill bishop made national news in a series of articles when he coined the phrase the big sort armed with original and startling demographic data he showed how americans have been sorting themselves over the past three decades into alarmingly homogeneous communities not at the regional level or the red state bluestate level but at the micro level of city and neighborhood in the big sort bishop takes his analysis to a new level in a brilliantly reported book that makes its case from the ground up starting with stories about how we live today and then drawing on history economics and our changing political landscape to create one of the most compelling big picture accounts of america in recent memory

epistemology the philosophy of knowledge is at the core of many of the central debates and issues in philosophy interrogating the notions of truth objectivity trust belief and perception the routledge companion to epistemology provides a comprehensive and the up to date survey of epistemology charting its history providing a thorough account of its key thinkers and movements and addressing enduring questions and contemporary

research in the field organized thematically the companion is divided into ten sections foundational issues the analysis of knowledge the structure of knowledge kinds of knowledge skepticism responses to skepticism knowledge and knowledge attributions formal epistemology the history of epistemology and metaepistemological issues seventy eight chapters each between 5000 and 7000 words and written by the world s leading epistemologists provide students with an outstanding and accessible guide to the field designed to fit the most comprehensive syllabus in the discipline this text will be an indispensable resource for anyone interested in this central area of philosophy the routledge companion to epistemology is essential reading for students of philosophy

one year out of college james nehring landed accidentally in teaching and soon discovered his love for the profession but he was surrounded by a school system consumed with order efficiency rules and punishment he wanted to change the system so began a quest that became a career why teach notes and questions from a life in education is a journey inside american education and a story of self discovery why teach is the perfect introductory text for an aspiring teacher a source of reflection for fellow educators and a compelling insider critique of the system from pre school to graduate school in an age dominated by social science why teach makes the case for a humanistic approach to schooling
