the foremost translator of perfection of wisdom literature from tibetan today presents three foundational works that formed the basis for the tibetans study of mahayana scripture and the bodhisattva path the perfection of wisdom prajnaparamita is a key element of the path in mahayana buddhism wisdom here is the transcendent wisdom of a bodhisattva who has penetrated the nature of reality the emptiness shunyata of all things sutras that take the perfection of wisdom as their name emerged in the centuries before and after the start of the common era and became foundational for the nascent mahayana these include the well known heart sutra and diamond cutter sutra as well as the perfection of wisdom sutras in eight thousand and a hundred thousand lines study of the perfection of wisdom sutras in tibet has historically been through commentaries on the ornament for the clear realizations abhisamayalamkara a short verse distillation in eight chapters attributed to maitreya that was expanded in india by such figures as asanga haribhadra and arya vimuktisena the three works in the present volume reflect the diversity of the tibetan commentarial tradition on these indian works ngok loden sherab s 1057 1109 topical summary marks the beginning in sangphu monastery of the most influential perfection of wisdom commentarial tradition ngok s short work leads the reader briskly through the abhisamayalamkara s seventy topics presenting what would become the standard framework for explaining the perfection of wisdom in tibet the entirety of haribhadra s vivrti commentary has been embedded in ngok s text gyaltsab darma rinchen s 1364 1432 way to practice the sequence of clear realizations structured as a defense of the meditation system set forth by his guru tsongkhapa in the great treatise on the stages of the path to enlightenment links the stages of the path expanded into the seventy topics with the actual practices of an accomplished yogi working outward from the middle of the abhisamayalamkara s fourth chapter it explains how the perfection of wisdom is integrated into a total and complete meditational practice for the attainment of buddhahood the great drukpa kagyü scholar kunkhyen pema karpo s 1527 92 sacred words of lord maitreya is the most detailed and systematic of the three works supplementing explanations of the

perfection of wisdom based on the abhisamayalamkara with verses from the mahayanasutralamkara ornament for the mahayana sutras and the uttaratantra sublime continuum this work as presented here includes within it a complete translation of the abhisamayalamkara s eight chapters

seminar paper from the year 2018 in the subject business economics economic and social history grade 1 language english abstract educational expansion is usually given paramount consideration in the modern society it is the dream of every parent to ensure his child acquires higher education this desire has led to an immense expansion higher education in the united states over the twentieth century it is explicit that higher education bears a wide range of benefits to individuals as well as the government foremost individuals with higher education benefit from what is referred to as positive selection a utility maximization paradigm based on economic factors holds that attainment of higher education corresponds to high economic returns the precepts of the positive selection hypothesis as described by heckman urzua vytlacil 2006 hold that those who acquire higher education benefit most from it as such it is apparent that higher education has economic and social benefits for instance college graduates receive better remuneration than their counterparts with a high school diploma it is also true that higher education attracts a high social esteem in the modern society despite these benefits higher education has negative aspects too therefore this paper aims at providing a comprehensive discussion of the negative aspects of higher education

the abhisamayalamkara summarizes all the topics in the vast body of the prajñāparamita sutras resembling a zip file it comes to life only through its indian and tibetan commentaries together these texts not only discuss the hidden meaning of the prajñāparamita sutras the paths and bhumis of sravakas pratyekabuddhas and bodhisattvas but also serve as contemplative manuals for the explicit topic of these sutras emptiness and how it is to be understood on the progressive levels of realization of bodhisattvas thus these texts describe what happens in the mind of a bodhisattva who meditates on emptiness making it a

living experience from the beginner's stage up through buddhahood groundless paths contains the first in depth study of the abhisamayalamkara the text studied most extensively in higher tibetan buddhist education and its commentaries from the perspective of the nyingma school of tibetan buddhism this study consists mainly of translations of maitreya's famous text and two commentaries on it by patrul rinpoche these are supplemented by three short texts on the paths and bhumis by the same author as well as extensive excerpts from commentaries by six other nyingma masters including mipham rinpoche thus this book helps close a long standing gap in the modern scholarship on the prajñāparamita sutras and the literature on paths and bhumis in mahayana buddhism arya maitreya's ornament of clear realization with its indian and tibetan commentaries presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena this presentation is a powerful antidote to whatever two dimensional views we might hold about spiritual experience and the journey to enlightenment
