buddhist masters say that we are in a dark age and recent global events including 9 11 the iraq war and the tsunami have created an atmosphere of fear tibetan masters encourage us not to lose heart catastrophes have happened before and we have overcome them and moved forward this book brings together tibetan buddhist teachings and contemporary politics presents traditional buddhist teachings in a practical readable way to help the reader cultivate the inner resources necessary to meet challenge and conflict both in himself and in the world it is about changing your life from within and then reaching out to change the world around you no good thought gesture or act is ever wasted and will slowly but assuredly bring about the changes that we all as humans want to experience and share with those we love from robert sachs introduction to achieve this vision we need to take personal responsibility for the future while understanding that there is no need to despair become a conscious engaged activist someone who has a firm foundation in spiritual principles that inform his actions as he seeks social or political change this is an inspirational and potentially life changing book

this book offers eight essays examining the dark side of a tradition often regarded as the religion of peace the authors note the conflict between the buddhist norms of non violence and the prohibition of the killing of sentient beings and acts of state violence supported by the buddhist community sangha acts of civil violence in which monks participate and buddhist intersectorian violence

this thesis examines the doctrinal grounds and different approaches to working out this new buddhist tradition a startling contrast to the teachings of non violence and compassion which have made buddhism known as a religion of peace in scores of articles as war approached in 1936 37 new monks searched and reinterpreted scripture making controversial arguments for ideas like compassionate killing which would justify participating in war

what s wrong with sex how to drive your karma consciousness commodified the karma of food the three poisons institutionalized why we love war these are just some of the chapters in this brilliant book from david r loy in little time loy has become one of the most powerful advocates of the buddhist worldview explaining like no one else its ability to transform the sociopolitical landscape of the modern world in this his most accessible work to date he offers sharp and even shockingly clear presentations of oft misunderstood buddhist staples the working of karma the nature of self the causes of trouble on both the individual and societal levels and the real reasons behind our collective sense of never enough whether it s time money sex security even war loy s buddhist revolution is nothing less than a radical change in the ways we can approach our lives our planet the collective delusions that pervade our language culture and even our spirituality

in buddha s company explores a previously neglected aspect of the vietnam war the experiences of the thai troops who served there and the attitudes and beliefs that motivated them to volunteer thailand sent nearly 40 000 volunteer soldiers to south vietnam to serve alongside the free world forces in the conflict but unlike the other foreign participants the thaïs came armed with historical and cultural knowledge of the region blending the methodologies of cultural and military history richard ruth examines the individual experiences of thai volunteers in their wartime encounters with american allies south vietnamese civilians and viet cong enemies ruth shows how the thaïs were transformed by living amongst the modern goods and war machinery of the americans and by traversing the jungles and plantations haunted by indigenous spirits at the same time ruth argues thailand s ruling institutions used the image of volunteers to advance their respective agendas especially those related to anticommunist authoritarianism drawing on numerous interviews with thai veterans and archival material from thailand and the united states ruth focuses on the cultural exchanges that occurred between thai troops and their allies and enemies presenting a southeast asian view of a conflict that has traditionally been studied as a cold war event dominated by an american political agenda the resulting study considers such diverse topics as comparative buddhisms alternative modernities consumerism celebrity official memories vs personal recollections and the value of local knowledge in foreign wars the war s effects within thailand itself are closely considered demonstrating that the war against communism in vietnam as articulated by thai leaders was a popular cause among nearly all segments of the population furthermore ruth challenges previous assertions that thailand s forces were merely america s mercenaries by presenting the multiple overlapping motivations for volunteering offered by the soldiers themselves in buddha s company makes clear that many thaïs sought direct involvement in the vietnam war and that their participation had profound and lasting effects on the country s political and military institutions royal affairs popular culture and international relations as one of only a handful of academic histories of thailand in the 1960s it provides a crucial link

between the keystone studies of the phibun sarit years 1946 1963 and those examining the turbulent 1970s

this is the first encyclopedia that critically surveys the ethics of warmaking from a variety of perspectives noted experts raise basic questions about what is just in war describe the views of historic and contemporary thinkers on ethical matters survey practices at different periods and discuss key issues the over 250 entries arranged in alphabetical order cover efforts to curb the havoc of war from medieval to modern times from accidental war to zagreb resolution different religious perspectives genocide un peacekeeping and much more sources for further reading accompany the entries and internal cross references and an index make this major reference easily accessible for students and teachers in military peace and world affairs studies this is the first encyclopedia that critically surveys the ethics of warmaking from a variety of perspectives historically efforts to curb the havoc of war have confronted three military maxims military necessity the right of reprisal and the obligation of soldiers to obey superior orders the medieval efforts of just war theorists to protect the innocent avoid needless havoc and prohibit excessive weapons rarely affected military practice modern congresses have pointed out the inconsistency in concerns about war crimes or crimes against humanity and the weapons and strategies of modern war the pressures of the military industrial complex the profits to be gained by war production and the demands of sovereign nationalism contradict such alternative concerns as those raised by the united nations and the international red cross noted experts raise basic questions about what is just in war describe the views of historic and contemporary thinkers on ethical matters survey practices at different periods and discuss key issues the over 250 entries arranged in alphabetical order cover efforts to curb the havoc of war from medieval to modern times from accidental war to zagreb resolution different religious perspectives genocide un peacekeeping and much more sources for further reading accompany the entries and internal cross references and an index make this major reference easily accessible to students and teachers in military peace and world affairs studies

after the attack on the twin towers in 2001 us president george w bush launched the war on terror ten years later in 2011 there was no sign of any end to fighting and twenty years later in 2021 after foreign troops left afghanistan the suffering continues the concept of a holy war in buddhism is the spiritual battle with the mental defilements of greed ill will and delusion the proximate cause of suffering according to the teaching of the buddha is craving and the root cause is ignorance due to not understanding things as they truly are we crave for and lust for pleasurable objects and reject and recoil from unpleasant objects the only way to reach peace is to fight the war on error to remove delusion if one rightly understands the three characteristics of impermanence unsatisfactoriness and not

self one will become equanimous regarding pleasant and unpleasant objects of the senses neither will one cling to views and opinions if the root cause of ignorance is destroyed all other mental defilements will also cease this book offers some advice on cultivating tolerance compassion and wisdom to live a peaceful life by avoiding conflict and withdrawing the mind from the inner and outer turmoil caused by wrong views and wrong thoughts

what guidance can buddhism provide to those involved in armed conflict and to belligerents who must perhaps kill or be killed or defend their families communities or countries from attack how moreover does buddhism compare with international humanitarian law ihl otherwise known as the law of armed conflict which protects non combatants and restricts the means and methods of warfare to limit the suffering it causes despite the prevalence of armed conflict in parts of the buddhist world few contemporary studies have addressed these questions while there is a wealth of material on buddhist conflict prevention and resolution remarkably little attention has been paid to what buddhism says about the actual conduct of war ihl is also still relatively little known in the buddhist world and might not therefore influence the behaviour of belligerents who self identify as buddhists and are perhaps more likely to be guided by buddhist principles this ground breaking volume is part of an international committee of the red cross project which seeks to fill this gap by exploring correspondences between buddhist and ihl principles and by identifying buddhist resources to improve compliance with ihl and equivalent buddhist or humanitarian norms this book will be of much interest to students and researchers of international law buddhism ethics as well as war and conflict studies the chapters in this book were originally published as a special issue of contemporary buddhism the open access version of this book available at taylorfrancis.com books oa edit 10 4324 9781003439820 buddhism international humanitarian law andrew bartles smith kate crosby peter harvey asanga tilakaratne daniel ratheiser noel maurer trew stefania travagnin elizabeth harris mahinda deegalle christina kilby has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license a version of the open access title is also available on the oopen platform library oopen.org handle 20 500 12657 75921

bruce dudak aka buddha doesn t want to leave vietnam lonely and insecure he is drawn to the innocent sensual beauty of the women but the only women who he appeals to are the ones who ask for money in exchange for their companionship tired of insincerity he yearns for the love of a beautiful woman trinh once a popular bar girl has had her life shattered by the war her face still stunningly beautiful on one side is obscenely disfigured on the other betrayed by the american she loved she lives a hopelessly futile life when fate brings them together buddha finds trinh unexpectedly alluring at first he denies his interest in her yet he is compelled to see her trinh does not want bruce s pity but his sincerity offers her renewed hope as they discover their love for one another they also discover that the peace they seek comes from how they view themselves and not how they appear to others buddha s war is a compelling story of self redemption told with the intimacy and honesty of one who has tasted the sweet bitterness of war
