a history of civilization in Italy from the birth of Petrarch to the death of Titian 1304 to 1576

the Renaissance is one of the most celebrated periods in European history but when did it begin when did it end and what did it include traditionally regarded as a revival of classical art and learning centred upon fifteenth-century Italy views of the Renaissance have changed considerably in recent decades the glories of Florence and the art of Raphael and Michelangelo remain an important element of the Renaissance story but they are now only a part of a much wider story which looks beyond an exclusive focus on high culture beyond the Italian peninsula and beyond the fifteenth century the Oxford Illustrated History of the Renaissance tells the cultural history of this broader and longer Renaissance from seminal figures such as Dante and Giotto in thirteenth-century Italy to the waning of Spain's Golden Age in the 1630s and the closure of the English theatres in 1642 the date generally taken to mark the end of the English literary Renaissance geographically the story ranges from Spanish America to Renaissance Europe's encounter with the Ottomans and far beyond to the more distant cultures of China and Japan and thematically under Gordon Campbell's expert editorial guidance the volume covers the whole gamut of Renaissance civilization with chapters on humanism and the classical tradition war and the state religion art and architecture the performing arts literature craft and technology science and medicine and travel and cultural exchange

drawing together the latest research in the field the Routledge History of the Renaissance treats the Renaissance not as a static concept but as one of ongoing change within an international framework it takes as its unifying theme the idea of exchange and interchange through the movement of goods ideas disease and people across social religious political and physical boundaries covering a broad range of temporal periods and geographic regions the chapters discuss topics such as the material cultures of Renaissance societies the increased popularity of shopping as a pastime in fourteenth-century Italy military entrepreneurs and their networks across Europe the emergence and development of the Ottoman Empire from the early fourteenth to
