seminar paper from the year 2006 in the subject english language and literature studies literature grade 2 0 ernst moritz arndt university of greifswald institut für anglistik amerikanistik course 18th century satire language english abstract in his great and exceptionally well researched book jonathan swift political writer james allen downie writes that true satire condemns society by reference to an ideal and that such is swift s satire this statement by downie not only serves as a good beginning for

defining satire but also hints at an important aspect that should not be forgotten in any analysis of swift's satirical works. Swift, as any satirist in fact, needed and used certain occasions and persons in his times to trigger his satirical writing and refer to another ideal because of his fixation with politics and his temperamental inability to ignore public affairs. His writings, and especially his pamphlets and satires, reflect prominent issues of his times for a satirical writer who wants to expose human flaws. It is of course essential to use examples that he expects his audience to know. It was therefore necessary that Swift, in his satires, referred to prominent persons or recent developments and issues of his days to make sure that his satirical messages were understood by the English and Irish readers of the early 18th century. For this reason, it is important to have at least a fundamental knowledge about political but also cultural, religious, and economic aspects of England's and Ireland's histories in the late 17th and early 18th centuries, the time in which Swift lived and by whose historical developments he was influenced. Historical knowledge about his times will certainly help to understand which contemporary problems and persons Swift thought worth satirizing and will also make it much clearer what Swift believed to be more general problems or flaws of humankind that he tried to expose using contemporary examples. Before I will point out historical references in two of Swift's satirical works, *verses on the death of Dr Swift* and *A Modest Proposal*, and show in which way historical knowledge can help to understand these satires, I want to take a look at some developments in England and Ireland in the late 17th and early 18th centuries that are essential to an understanding of Swift's work.

Seminar paper from the year 2010 in the subject American Studies / Literature, Grade 1.7, University of Bayreuth, Anglophone Literaturen und Kulturen / Amerikanistik course, 9.11. and American Literature, Language: English, Abstract: I. Introduction In the aftermath of the terrorist attacks on the World Trade Center on September 11th, 2001, 9.11 hereafter, much has been said and written about the spectacular, almost incredible crime which could be witnessed by large parts of the world's population live on television in order to be able to cope with the events and understand what happened on that day in September 2001. Many works of fiction and non-fiction that deal with the events of the attacks have been created. Now that almost nine years have passed since the day when the planes hit the World Trade Center and the buildings collapsed, the incidents and the aftermath can be viewed from a certain distance, and much of the work that was written and created in order to be able to cope with the events offers itself for an analysis. The novel *Surveillance* (2006) by Jonathan Raban is part of the literature that deals with the aftermath of 9.11. However, unlike most of the literature that is focused on this situation and this period of time, the actual attacks do not play much of a role, and apart from one exception on page 136, remain almost unmentioned throughout the novel. *Surveillance* rather focuses on the years after the attacks and the prevailing anxious atmosphere in the American society of that time. The novel depicts the life of a fictional character named Lucy Bengstrom and her daughter in Seattle in the years after 9.11. The society which Lucy lives in is coined by an atmosphere of menace, uncertainty, and surveillance, much of which is based on the political decisions that followed 9.11. In its first part, this seminar paper discusses the topic of surveillance itself; it will try to answer how surveillance became such a present topic in today's media and briefly debate the controversy by which it is surrounded. Secondly, this seminar paper analyses the writing style of Jonathan Raban's *Surveillance* and the conclusions that can be drawn from it concerning the topic of surveillance. The third part focuses on the content of Jonathan Raban's novel *Surveillance*; it analyses Jonathan Raban's more direct statements and conclusions concerning the topic of surveillance.
