Since the beginning of the Western tradition, in drama dominant cultures have theatrically represented marginal or foreign racial groups as other, different from normal people, not completely human, uncivilized, quaint, exotic. Comic playwrights and audiences alike have been fascinated with racial difference, and this fascination has depended upon a process of fetishization. By the time Asians appeared in the United States, the framework for their constructed Lotus Blossom and Charlie Chan stereotypes had preceded them in marginal sights. James Moy dismantles these stereotypes in an unrelenting attack on Anglo-American institutions of racial representation. Reading the Chinese stereotype through several media, Moy notes the consistency of Anglo-America's construction of what he terms Chineseness. He rejects the dominant cultural assertion that stereotypes contain a germ of truth, arguing instead that this so-called germ of truth is itself a construction that serves the evolving social and material concerns of an often Sinophobic White America. Through time, the stereotypes have taken on a life of their own, and those who sought to overturn them have often failed. Thus

seemingly validating them may on the other hand spotlights the constructed orientals so brilliantly that the real asian americans behind them can become visible at last consisting of ten readings of chineseness in america this sophisticated text reveals the source of representational racial oppression in america may examines diverse sites of representation from museum displays cartoons and plays to early photographs films circus acts performance art and pornography his persuasive assault on the responsible institutions is uncompromising however with surprising insouciance may juxtaposes wit with the often grim details of america s representational legacy while marginal sights focuses on chineseness in america may makes explicit its applicability to all institutionally managed representations racial and otherwise anyone interested in anglo american and asian american studies cultural and film studies theatre history communication and psychology will need to read this book

this is a sequel to horror movie posters because the earlier volume focused solely on the horror genre this volume has a greater emphasis on fantasy and science fiction because the classic films of the 1930s and 1940s were extensively covered in the previous volume this volume focuses more on the years after 1950 the posters are in chronological order to better show the evolution of the genres with the exception of the star wars and star trek films which are grouped together within each series
