video gaming can be a very entertaining experience for many people sometimes you will notice that hours have gone by while you are playing if you are a person who enjoys playing video games you may want to consider creating your own video game the market for video games continuously expands there is a large amount of money that can be made in the video game industry learning how to create a video game will give you an opportunity to make a lot of money as well as provide you with a feeling of self accomplishment a lot of people have great ideas about video games but sadly many of them do not chase their dreams the reason for this in most cases is that the person may feel as if it is too hard for them to do or that they may not be smart enough do not be one of these people if you have come up with an idea you have already accomplished one of the hardest parts of creating a video game creativity does not come naturally to everyone and you should take pride in the fact that you have a creative mind if you have a creative mind and enjoy video games you should seriously consider creating your games after all it could present you with an opportunity to generate cash flow doing something you love the following chapter in this book will shed some light on the basics of creating a game and give you some pointers to guide you through the basic processes grab it now

in just under a decade facebook has gone from a harvard prodigy s dorm room experiment to an essential part of the social life of hundreds of millions of children teens and adults across the globe it s no surprise then that the company has been the subject of countless magazine articles books and even movies but despite the extensive coverage that has been given to the company in the years since founder mark zuckerberg first took facebook live on harvard s server one question remains unanswered from a business standpoint how exactly did facebook do it how did a college student with no real world business experience take a relatively simple idea and then less than ten years later turn it into a 100 billion dollar company what specific steps did facebook take along its journey to creating perhaps the most innovative startup of the 21st century what approach did it take when pitching venture capitalists and how did it go about forging its many strategic partnerships and most importantly how can would be founders learn and effectively utilize facebook s unique techniques and strategies in their own startup efforts in how to create the next facebook tech guru tom taulli answers all of these questions and more crystallizing the process by which facebook was shepherded from idea to ipo to provide a guided blueprint for budding entrepreneurs who are ready to start building their own great business regardless of what stage of development your startup is in how to create the next facebook provides you with clear compelling and ultimately actionable advice extracted from facebook s startup success story you ll learn how facebook handled the very same situations your startup is confronting from how it arrived at its mission statement to what its priorities were during its talent search process before gaining access to all the concrete practical guidance you need to make the right decisions for your company and continue moving forward with confidence and of course because facebook didn t get everything right at first author tom taulli painstakingly details the company s most costly mistakes documenting everything from its protracted legal struggles to its many failed attempts at establishing multiple revenue streams so that you can arm your company against the various challenges that threaten to sink even the very best startups by the time you turn the final pages of how to create the next facebook you ll realize that facebook is more than just a fun place to catch up with old friends it is the ideal model to follow for those who like you are ready to build the world s next great startup

what does it feel like to walk into your school is it a welcoming place where everyone feels valued most school improvement efforts

focus on academic goals instructional models curriculum and assessments but sometimes what can make or break your learning community are the intangibles the relationships identity and connections that make up its culture authors fisher frey and pumpian believe that no school improvement effort will be effective unless school culture is addressed they identify five pillars that are critical to building a culture of achievement 1 welcome imagine if all staff members in your school considered it their job to make every student parent and visitor feel noticed welcomed and valued 2 do no harm your school rules should be tools for teaching students to become the moral and ethical citizens you expect them to be 3 choice words when the language students hear helps them tell a story about themselves that is one of possibility and potential students perform in ways that are consistent with that belief 4 it's never too late to learn can you push students to go beyond the minimum needed to get by to discover what they are capable of achieving 5 best school in the universe is your school the best place to teach and learn the best place to work drawing on their years of experience in the classroom the authors explain how these pillars support good teaching and learning in addition they provide 19 action research tools that will help you create a culture of achievement so that your school or classroom is the best it can be after reading this book you'll see why culture makes the difference between a school that enables success for all students and a school that merely houses those students during the school day

what counts is what's written on your curriculum vitae what you've done until yesterday this was the rule that governed rising to the top in the professional world the current job market on the other hand seems to be increasingly interested in the so called soft skills the aptitude skills that make one profile more suitable than another the queen of these soft skills the one that will allow both young people and their elders to face the exponential social and technological changes that await us is the ability to create and maintain interpersonal and professional relationships over time in other words networking the book tells a personal story in a simple passionate and detailed way so that readers can understand the dynamics that regulate the creation of an effective network of contacts real cases are dissected in clear methodological takeaways and summed up by quotes that show how the fruits of forty years can be replicated and are within the reader's reach through training and good techniques

read this if you want to sell more books make more money as an author or rank higher in your category my name is nick vulich the first thing you should know about me is i m not a writer and i m not an expert on self publishing either i never worked in the industry and i don t have any experience working for the big publishers in fact the only thing i consider myself an expert in is how to sell on ebay amazon and fiverr so why should you listen to me like most indie authors i came into publishing through the back door i had a story to tell and one day i just sat down and let it all come out what i wrote wasn t pretty or polished but it helped a lot of people sell more stuff on ebay what i couldn t say with fancy prose i made up for with enthusiasm because of that my books sold i m not going to lie to you it wasn t easy i read just about every book available on self publishing i studied up on kdp free days countdown deals price pulsing
