the struggle between islam and the crusaders comprised a dialogue of cultures on a broad geographic scale and a wide expanse of time a perennial seesaw of conquest in the west as in the east father burns pioneering work on valencia has demonstrated that the inner reality of this sustained confrontation lies as much in the colonial interims as in the battles originally published in 1974 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

as the sun rises on china and sets on america the world holds its breath china the usa and capitalism s last crusade looks at the rise of china and the decline of the usa but from a different angle william briggs argues that this struggle for economic supremacy is being played out against a much bigger backdrop the decline of the economic structure of capitalism in this sense the decline of the usa is portrayed as that larger economic decline in microcosm briggs examines the relationship between state and capital of how capitalism came to dominate the world and of the historical political and economic rise of both the usa and china he shows that the struggle between the two nations has little to do with cultural historical demographic political or ideological differences but with what they have in common despite the portrayal of china as being socialist it functions as a capitalist economy in the globalised capitalist world while its journey to capitalism may have differed the end point is the same and this is why there is such animosity such conflict such acrimony between the two states
