please note this is a companion version not the original book sample book insights 1 the author made a picture of what would happen if a pretty stenographer entered your office she took off her gloves opened her purse and dumped it out on the table she had two dimes and a nickel and a cardboard match box she left the nickel on the desk put the two dimes back into her purse and took her black gloves to the stove 2 f scott fitzgerald the author of the great gatsby was a novelist who wrote screenplays for movies he was always searching for the answer to what made a good screenplay he was never sure what a screenplay was and he wondered whether he was doing it right 3 the opening section of fitzgerald's novel which focuses on how rosemary saw the divers is more cinematic than novelistic it's a great cinematic opening setting up the characters as others see them like an establishing shot 4 a screenplay is not a novel a play or a diagram it is a story told with pictures in dialogue and description and placed within the context of dramatic structure

you can tell a true war story if you just keep on telling it tim o'brien writes in the things they carried widely regarded as the most important novelist to come out of the american war in viet nam o'brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non fictional versions of the war's defining experiences but also by rewriting those stories again and again key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post publication variants in reprints how to revise a true war story is the first book length study of o'brien's archival papers at the university of texas s harry ransom center drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of o'brien's works john k young tells the untold

stories behind the production of such key texts as going after *cacciato* the things they carried and in the lake of the woods by reading not just the texts that have been published but also the versions they could have been young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Vietnam the result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways in their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Vietnam perhaps in this case you can tell a true war story if you just keep on revising it

this book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system these individuals are the missing creative elements needed to fully understand the emergence and initial spread of UN ideas such as human development sovereignty as responsibility and multifunctional peacekeeping the book shows that that temporary UN officials are an actor category which is empirically crucial yet usually neglected in analytical studies of the UN system focussing on these particular individual actors therefore allows for a better understanding of complex UN decision making demonstrates how these civil servants matter looking at what their agency is based on offering a new and distinctive model Bode seeks to move towards a comprehensive conceptualisation of individual agency which is currently conspicuous for its absence in many theoretical approaches that address policy change uses three key case studies of international civil servants Francis Deng Mahbub ul Haq and Marrack Goulding to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo this book will be of great interest to students and scholars of international organizations and the United Nations
