this groundbreaking book by a pioneer in neuroscience brings a new understanding of our emotions why each of us responds so differently to the same life events and what we can do to change and improve our emotional lives if you believe most self help books you would probably assume that we are all affected in the same way by events like grief or falling in love or being jilted and that only one process can help us handle them successfully from thirty years of

studying brain chemistry davidson shows just why and how we are all so different just as we all have our own dna so we each have our own emotional style depending on our individual levels of dimensions like resilience attention and self awareness helping us to recognise our own emotional style davidson also shows how our brain patterns can change over our lives and through his fascinating experiments what we can do to improve our emotional responses through for example meditation deepening our understanding of the mind body connection as well as conditions like autism and depression davidson stretches beyond mainstream psychology and neuroscience and expands our view of what it means to be human

what happens in our brains to make us feel fear love hate anger joy do we control our emotions or do they control us do animals have emotions how can traumatic experiences in early childhood influence adult behavior even though we have no conscious memory of them in the emotional brain joseph ledoux investigates the origins of human emotions and explains that many exist as part of complex neural systems that evolved to enable us to survive one of the principal researchers profiled in daniel goleman s emotional intelligence ledoux is a leading authority in the field of neural science in this provocative book he explores the brain mechanisms underlying our emotions mechanisms that are only now being revealed

who hasn t felt at least at one time overlooked overwhelmed or overly self critical at work the emotional life of organisations explores the often overlooked emotional fabric that shapes organisational life organisations grow compete and change based on the emotions that drive people s choices politics and goals emotions can either energise or paralyse people most business books ignore this fundamental driver of organisational behaviour and almost exclusively focus on the logical and cognitive aspects of work using an easy to read and engaging style this book will help people and businesses understand the important role emotions play in the workplace by using research stories useful tips and writing assignments to explain motivation the emotions that motivate employees and how leaders can channel them anxiety navigating workplace uncertainty fear and self doubt criticism managing the emotional impact of giving and receiving feedback envy understanding and addressing envy in the workplace change helping teams through the emotional rollercoaster of transformation well being recognising and managing burnout addiction depression and the effects of emotional strain the emotional impact of remote working the knowledge gained through reading this book is powerful in helping leaders managers and employees to improve well being motivation and performance at work

this longawaited book by a pioneer in brain research offers a new model of our emotions their origins their power and

their malleability for more than thirty years richard davidson has been at the forefront of brain research now he gives us an entirely new model for understanding our emotions as well as practical strategies we can use to change them davidson has discovered that personality is composed of six basic emotional styles including resilience self awareness and attention our emotional fingerprint results from where on the continuum of each style we fall he explains the brain chemistry that underlies each style in order to give us a new model of the emotional brain one that will even go so far as to affect the way we treat conditions like autism and depression and finally he provides strategies we can use to change our own brains and emotions if that is what we want to do written with bestselling author sharon begley this original and exciting book gives us a new and useful way to look at ourselves develop a sense of well being and live more meaningful lives

in this insightful exploration of the humanity of jesus christ renowned theologian b b warfield examines the gospel accounts of jesus life to uncover the rich tapestry of emotions he experienced warfield carefully navigates the complexities of the incarnation seeking to understand how jesus divine nature interacted with his human emotions through a close analysis of specific passages warfield paints a vivid picture of a savior who fully embraced the human experience providing a foundation for understanding the depth of christ s love and compassion for humanity

now updated with new material throughout alicia f lieberman s the emotional life of the toddler is the seminal detailed look into the varied and intense emotional life of children aged one to three hailed as groundbreaking by the boston globe after its initial publication the new edition includes the latest research on this crucial stage of development anyone who has followed an active toddler around for a day knows that a child of this age is a whirlwind of explosive contradictory and ever changing emotions alicia f lieberman offers an in depth examination of toddlers emotional development and illuminates how to optimize this crucial stage so that toddlers can develop into emotionally healthy children and adults drawing on her lifelong research dr lieberman addresses commonly asked questions and issues why for example is no often the favorite response of the toddler how should parents deal with the anger they might feel when their toddler is being aggressively stubborn why does a crying toddler run to his mother for a hug only to push himself vigorously away as soon as she begins to embrace him this updated edition also addresses twenty first century concerns such as how to handle screen time on devices and parenting in a post internet world with the help of numerous examples and vivid cases lieberman answers these and other questions providing in the process a rich insightful profile of the roller coaster emotional world of the toddler

this study questions the validity of the american psychiatric association s definition of autism and offers evidence that even non verbal children have an emotional life drawing on data from a series of intimate interviews with the parents of children with autism from three different cultures namely the uk india and taiwan the reader is shown how children with autism have emotional competence and do experience both negative and positive emotions parents of children with autism have to make many sacrifices and worry about their child s ability to become independent good parent teacher relationships are essential and doctors and their teams need to be sensitive and help families find the resources that they need in some cases religion plays an important role as does the acceptance by society in general the book will be of particular interest to families teachers and professionals dealing with autism

the purpose of this book is to introduce mental health professionals to the emotional life interview that offers therapy to those with mental health problems in a more effective and time sensitive process it meets today s pressures to provide essential care at less cost the emotional life interview eli involves asking each client seven questions about five negative feelings and emotions fear anger shame guilt and sadness and six questions about two positive feelings and emotions pride and happiness the process takes the practitioner into the emotional life of a client as no other procedure does major sections of the book discuss feelings emotions and psychotherapy meaning arousal and the construction of emotions and the use of the eli in psychosocial treatment in addition nine complete chapters are devoted to case histories which illustrate how important feelings emotions and relationships are in mental health problems these case study interviews become conversations in which the clients reveal the character of their consciousness with respect to their emotional lives the eli questions presented in the case studies require clients to represent their thoughts and actions in words and to tell their emotional life stories in a manner that is itself therapeutic the life stories show in bold relief where changes are needed the emotional life interview provides a framework for emotional life education the interview puts diagnosis and psychotherapy on the same continuum and makes therapy and emotional life education a viable healthcare option the book represents a valuable new tool for all clinical and counseling psychologists clinical social workers psychiatrists and primary care providers it will also serve as a resource in the helping professions welfare work and human services

personality makes us who we are and influences every aspect of our lives from how we interact with others to how we respond in stressful situations personality psychology uses a unique organizational framework to explore the six key domains of knowledge about personality dispositional biological intrapsychic cognitive experiential social and cultural
