how we will learn in the 21st century is a book about change and technology judy breck author of the wireless age spent some four years finding and organizing web pages spanning all disciplines dubbing the internet a golden swamp she describes how the internet has unified so many previous disparate threads of knowledge including libraries museums laboratories archives and collections both academic and private breck sees the power that so much combined knowledge represents as coming with enormous responsibility and she divides that responsibility into three areas first today s teacher must know how to find the necessary information second he or she must know how to powerfully express it via a web page last there must be a concerted effort among educators to link academic sites together on the internet to form a world s fair of knowledge only by accomplishing these things can teachers and students fully realize the wealth of

knowledge of the internet
