over the past 30 years there has been a dramatic increase in the availability of convenient and legal gambling opportunities accompanying this proliferation of gambling is a growing understanding that between 5 and 9 of adults experience significant to severe problems due to their gambling activities these problems have become a real health concern with

substantial costs to individuals families and communities the objective of this book is to provide the clinician or graduate student with essential information about problem and pathological gambling after placing this behavioral addiction and its co occurring difficulties in perspective by describing its proliferation the associated costs and diagnostic criteria and definitions the authors present detailed information on a strategy to assess and treat gambling problems in an outpatient setting

this book addresses the problems and possibilities of english language education in southeast asia from the point of view of researchers who are themselves also english language teachers the researchers are from malaysia indonesia philippines singapore and new zealand the articles in this edited book examine teaching and language learning goals in relation to the desired development of linguistic knowledge more importantly the articles also reflect on the nurturing of appropriate learning abilities and independent thinking that is framed by the expanding learner awareness of identity culture and society within and beyond the classroom ultimately the book tackles issues that emerge from the fact that we teach and learn english in a region that is hugely multicultural and multilingual

this book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact by offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i e extending the implementation and knowledge of co design methods in this first edition of our research topic on active learning we highlight two of the three types of publications we wish to promote first are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community these types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in betweens straddling the two worlds as a result these publications represent both the rigours of research and the pragmatism of reflective practice in forthcoming editions we will add to this collection a third type of publication design profiles these will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike we hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in

pedagogical innovation
